Establishment of
Amalgamated Finance Limited.

CCHAIRMAN'S REPORT

Dear Shareholders,

We were able to increase net operating income by 8% in a year that the economy contracted by approximately 2%. Our profit before taxation also increased from \$297 million in 2016, to \$322 million in 2017, for a year-over-year increase of 8.4%.

It is true that markets are cyclical, that years of optimism, prosperity and progress can be unwound by uncertainty and pessimism. We have observed this phenomenon manifest itself time after time in the short history of our country – during the global and then regional financial crisis of 2008, in the 1980s when oil prices fell to a record low, and during the fledgling years after our Independence in the 1960s. Each time, our country and its people recovered, learning from the challenging experiences and consequently returning better informed and prepared to deal with the future. The growth story of our nation, thus, is not relegated to the abundant natural resources available to us. In fact, many other nations have been blessed with significantly more natural wealth than we have, but struggle to turn this into prosperity for their nationals. What differentiates our country is something more fundamental than the fortune that lays beneath our feet. It is the strength and resilience of our people, the public discourse and debate about the best ways to face our challenges, our highly educated workforce, a basic respect of our fellow man, and a stable political environment.

These are the factors that give us, at ANSA Merchant Bank, immense confidence in the future of our nation, regardless of the day-to-day vagaries of the energy market.

We have shared over the years that the principal reason behind the strength and stability of ANSA Merchant Bank is that we manage and operate our company with a consistent set of business principles and core values. First and foremost, as we move forward in these uncertain economic times, we believe that shareholders will benefit from our commitment to continue doing the right thing for our clients and the communities we serve. This will become apparent in many different ways. Above all, we remain committed to robust risk-management systems, ensuring that we protect our clients. Secondly, the

What differentiates our country is something more fundamental than the fortune that lays beneath our feet, it is the strength and resilience of our people, the public discourse and debate about the best way to face our challenges.....

Dr. Anthony N. Sabga, ORTT
CHAIRMAN

management team focuses on providing the absolute best-in-class customer service on a daily basis. Thirdly, we proactively monitor the horizon to present our clients with new opportunities, while doing our best to safeguard their capital and protect their interests.

At the core of our strategy, therefore, is an approach to look at banking and insurance through our customers' eyes. This has resulted in the enhancement of our position in a crowded marketplace, as we have adapted our offerings to help our customers better appreciate their financial circumstances by reducing complexity. We continue to provide creditworthy businesses of all sizes with the capital and financial tools they need to drive growth to secure a future for their staff and stakeholders. To individuals and families, we commit to enhance their insurance, credit, savings and investment needs to protect them for generations to come.

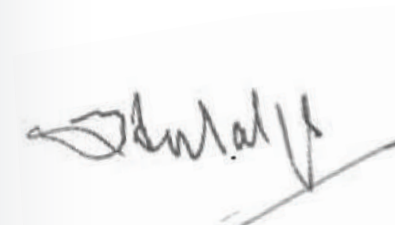

Just as importantly, we began managing the challenges posed by the current environment early and effectively. Our committees strengthened lending standards and oversight, we reinforced and expanded our underwriting and actuarial teams, our investment outlook was ahead of the curve in understanding and dealing with the market turmoil caused by the changing commodities landscape, and our Board developed an overarching strategy to grow the Bank Group while navigating these uncertain times.

Yet, as we confront today's challenges, we have not lost sight of the fact that many of the most

important successes that AMBL has enjoyed have come during times of tumult. During the 2008 crisis, while other banks shrank and completely changed their focus on risk, we cautiously grew our merchant banking and asset management divisions. From modest beginnings, our asset management unit now has in excess of \$6.3 billion in assets under administration, while the merchant banking team has since arranged over \$20 billion in transactions. During the 1997 Asian financial crisis, when the future of all emerging markets seemed to be in jeopardy, we saw past the noise and increased our investment in the bank to create ANSA Finance. The ANSA McAl group itself also has a proud tradition of employing capital and investing in people at times when others have retreated. In the 1980s, during the depths of the recession, we chose to make bold acquisitions at discounted prices. Acquisitions that helped transform the ANSA McAL Group into becoming one of the largest conglomerates in the region. More recently, our company completed its acquisition of Consolidated Finance of Barbados in 2016, despite the negative predictions for the Barbadian economy that prevail in the market. We strongly believe that this investment, too, will create long-term value for shareholders to enjoy for years to come. In times such as these, it would be easy to fall prey to short-term thinking. Nevertheless, we have always persisted in not only improving our own position, but also in providing much needed leadership in the industry, as has been our legacy during times of uncertainty.

In addition to the history, culture, management and Board-approved forward looking strategy of the firm, shareholders should also find comfort in the strength of our Balance Sheet. We remain amongst the least levered financial services firms in the region. Our insurance companies continue to grow market share while retaining particularly strong underwriting standards. We have a very low level of debt and yet still generate top-quartile returns on equity for our shareholders. The bank has been proactively managed to maintain a market-leading capital adequacy ratio and our non-performing loans ratio is also amongst the lowest for the market-segment in which we compete.

Ultimately, these are the critical fundamentals which will once again see us grow through a recession. Most importantly, we have grown as a team and have emerged better informed and more experienced from the events of the past two challenging years. In closing, I would like to thank the Board of Directors, the Management Team and Staff for their superlative efforts throughout the course of the past year, and thanks to our shareholders and customers for their continuing confidence.

Dr. Anthony N. Sabga, ORTT
CHAIRMAN

MANAGING DIRECTOR'S REPORT

ANSA Merchant Bank's consolidated results reveal an outstanding performance in 2016 in the face of challenging economic headwinds. A reduction in government revenues and spending with the consequential contraction of the local economy and shortages in securing foreign currency for our customers also created new challenges for us to surmount. The global geo-political developments of 2016 have caused some uncertainty and, for us, excitement about new opportunities. In 2016 ANSA Merchant Bank acquired Consolidated Finance Co. Limited ("CFC") of Barbados. This is one of several new opportunities that we are capitalizing on at this time and represents the first step toward deepening our regional footprint. Many of the strategies that we employed a few years ago have safely positioned our business for the very challenges we face today. We are confident in our ability to overcome the environment, maximise new opportunities and deliver

new products with exceptional service to our clients.

ANSA Merchant Bank and its operating subsidiaries: TATIL, Tatil Life and now CFC, recorded profit before taxation of \$322.0 million for the year ended 31 December 2016, the second highest result in our history. CFC was acquired on 3rd October 2016 and contributed \$6.0 million to the profit before taxation. If we excluded CFC for a consistent year-on-year comparison, we would have increased profit before taxation in 2016 by 6% over 2015. Total revenue increased by 13% from \$721.1 million in 2015 to \$813.8 million in 2016 and our earnings per share increased from \$2.89 in 2015 to \$2.94 in 2016. The increase in earnings per share did not reflect the increase in profit before taxation as our 2015 taxation charge included one-off accounting adjustments for deferred tax which did not recur in 2016.

10 YEARS OF GROWTH IN PROFITABILITY

We are confident in the sustainability of our results and our resilient Balance Sheet. The total equity grew to \$2.2 billion in 2016, which represents an 8% increase over the prior year. As such, the Board of Directors have approved a

final dividend of \$1.00 per share which brings the total dividend for the year to \$1.20 per share, which is a \$0.15 per share increase or 14% above the dividend payment for the 2015 financial year.

Gregory N. Hill
MANAGING DIRECTOR

SHAREHOLDER VALUE

Our balance sheet is managed on a prudent, risk-based approach, in line with our growth strategy. Assets increased over the 2015 level by \$670.5 million to \$7.4 billion as at 31 December 2016. The CFC acquisition provided a net increase in total assets of \$715.2 million and has resulted in a more diversified composition of assets. Our investment portfolio which comprised 50% of our total assets in 2015 now comprises 44%

of the total assets in 2016, with our loans and receivables now comprising 31% of our total assets, as compared to 28% of total assets in 2015. Increased cash utilisation has resulted in cash and cash equivalents comprising 11% of total assets in 2016, as compared to 12% of total assets in 2015. Loans and advances and lease receivables ended the year on \$4.7 billion which was an increase over the 2015 year-end of \$453.2 million.

BANKING

ANSA Merchant Bank Limited

ANSA Merchant Bank Limited, the Parent Company ("the Bank"), produced profit before taxation in 2016 of \$195.5 million, surpassing the prior year's profit before taxation of \$194.0 million. Our net operating income decreased to \$248.0 million in 2016 as the increase in the domestic interest rates during the first half of 2016 negatively impacted the financial market. In view of the domestic macro-economics, we have also implemented operational enhancement measures to contain expenses, while continuing to deliver the high levels of customer service that have become synonymous with ANSA Merchant Bank.

Our asset finance portfolio grew by a healthy 5% in 2016 and we have achieved this while maintaining a relatively good asset quality given our conservative credit culture. We continue to see excellent customer demand for our InOne Package and we have augmented this service offering other product add-ons, as we leverage our relationship with

our Insurance subsidiaries to create better value for our customers. Our Investment Services business continues to fare well in the face of the unprecedented geo-political events of 2016 which have shaped the investment climate of the financial year. We carefully chose our investment strategies based on deliberate perspectives to deliver returns while maintaining a robust balance sheet. The slight reduction in our investment securities portfolio in 2016 to \$600.2 million reflects another deliberate strategy, to preserve the balance sheet. The returns delivered by our Investment Services team may be evidenced by the returns delivered on our Mutual Funds, which we manage at rates of returns which exceed many of our competitors. Our Investment Banking business delivered another outstanding year of financing deals in the capital market and provided our growing suite of institutional clients with great assets for their portfolios. Many have partnered with us due to our cautious reputation, innovation, speed of execution and investment proposition.

BANK PERFORMANCE

Consolidated Finance Co. Limited

Rolf Phillips
MANAGING DIRECTOR - CFC

Consolidated Finance Co. Limited (CFC) produced a profit of \$19.5 million in 2016. Operating income was up from \$45.4 million in 2015 to \$47.1 million in 2016. Net Lease Rental Income showed the most progressive revenue

performance, increasing from \$12.8 million in 2015 to \$14.5 million in 2016, growth of 13.2% year on year. Also adding to 2016 profit was very careful expense management.

Our capital base improved from \$165.6 million at December 31, 2015 to \$180.1 million in 2016, reflecting our strong performance. Our capital adequacy ratio improved from 22% in 2015 to 26% which is well above the regulatory requirement of 8%.

Our most unique selling proposition is our excellent service delivery which we expanded in 2016 by the introduction of an insurance agency. We are also excited to re-introduce mortgages to our product suite.

All of AMBL's business lines will be partnering with CFC in 2017 to broaden the service base that we offer to clients regionally. I am pleased with the progress of the integration of the operations of CFC into AMBL as we aim to deliver seamless service to our customers and leverage best practices across both businesses.

risk and return that create value for our shareholders.

We continue to demonstrate that we are market leaders in how we manage costs and in the efficient running of our business. In 2016, our "Combined Ratio" (Expenses plus Claims as a proportion of our Net Premiums) and "Efficiency Ratio", (Expenses as a proportion of our Net Premiums) were 79% and 43% respectively.

Our focus on risk management and underwriting is seen in our underwriting results (Profits from Insurance Operations), and with a Claims Ratio of 40% in 2016, we also produced our best on record in this category as well.

The local industry continued to benefit from the falling reinsurance costs due

to "softening" of international reinsurance markets. Unfortunately, across the industry this benefit acted as a catalyst to rate slashing, as "hyper-competitive" pricing led to an overall contraction and slowing down of the local market. Insurers struggled to retain market share and meet prior year revenues.

We continued to observe low investment yields in both local and international investments. The availability of Investments that meet Statutory Funds and Statutory Deposit requirements continued to be difficult to source.

The industry still awaits the passing of the new Insurance legislation. This will allow for the further development and growth of the industry, via much needed improvements in Controls and Governance such as Minimum Capital Requirements and Capital Adequacy.

GENERAL INSURANCE

M. Musa Ibrahim
MANAGING DIRECTOR - TATIL

Trinidad & Tobago Insurance Limited (TATIL) had another very successful year recording the highest level of revenues and profits in its 53-year history. Gross Written Premium Income stood at \$360 million, and Profit before Tax of \$103 million. This was our second consecutive year of surpassing \$100 million in profit.

We continue to enjoy the highest local rating of "A-(Excellent)", as rated by international rating agency "AM Best". TATIL continues to be one of the more significant players in the market, and at the end of 2016 our total assets of \$1.1 billion and net assets of \$676 million stand amongst the largest in the industry. Our strong asset base, allows us to purchase reinsurance that generates the most efficient level of

NET PREMIUM & UNDERWRITING PROFIT - \$ MILLIONS

LIFE INSURANCE

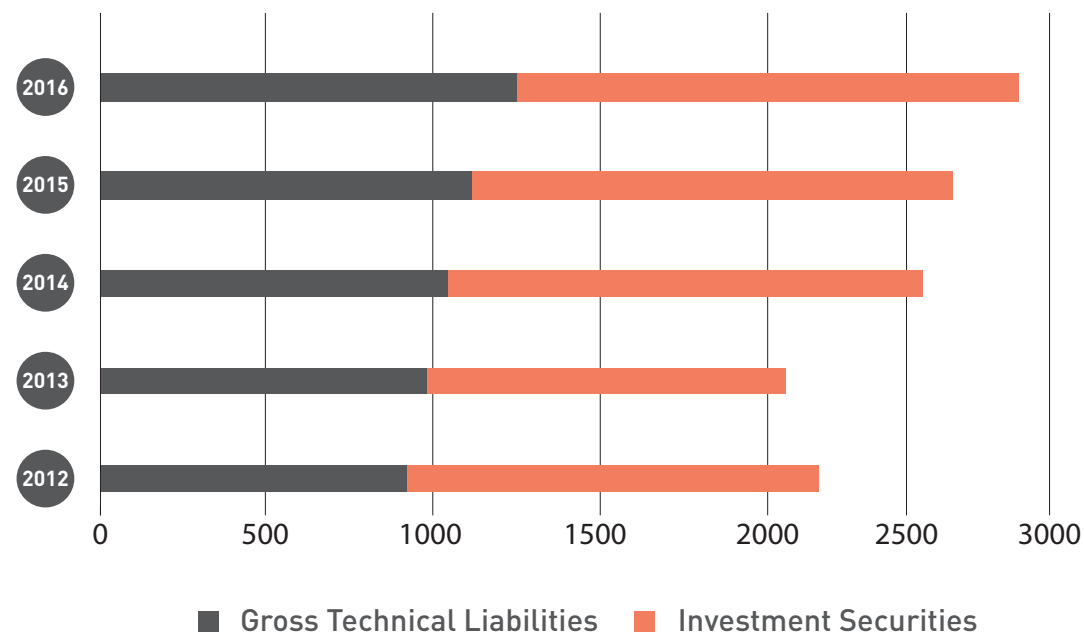

Ronald Milford
MANAGING DIRECTOR - TATIL Life

In 2016, Tatil Life Assurance Limited (TATIL Life) experienced a phenomenal year. Although the economic downturn continued into 2016, Tatil Life successfully navigated these conditions, as it grew both its Premium Income and Profit before Tax.

Premium Income for the year grew by 11% over 2015 and Profit before Taxation for the year ended December 31, 2016 was \$53.1 million against 2015 \$37.2 million, which represents an increase of 43% year over year. Investment income contributed significantly as it improved by 20%.

The mortgage portfolio grew steadily, as we continue to diversify our investments and increase market share as a mortgage provider. Strategically, the Company will be expanding its product offerings to its customers, thereby providing home ownership security and assurance to the people of Trinidad & Tobago.

INVESTMENT SECURITIES AND TECHNICAL LIABILITIES

LOOKING AHEAD

In 2016 our businesses delivered another successful year of results despite the uncertain economic environment both locally and internationally.

Although we anticipate a further contraction in 2017, we are excited at the opportunities that we are creating. We will be investing significantly in our IT infrastructure in both banking and insurance to improve operating efficiency and deliver better service to our clients. We expect to see momentum from the recent launch of our Wealth Management business and Mortgage products while we continue to grow our other business lines through the consistent application of our proven strategy.

We have an excellent executive team across all businesses, supported by expert management and together we remain committed and enthused by the transformation of our business to a market leader in our chosen business lines. I am confident in the future of our businesses and the benefits that we will return to our customers, shareholders and employees.

INDEPENDENT AUDITOR’S REPORT

TO THE SHAREHOLDERS OF ANSA MERCHANT BANK LIMITED

Report on the Audit of the Separate and Consolidated Financial Statements

Opinion

We have audited the separate and consolidated financial statements of ANSA Merchant Bank Limited (‘Parent’) and its subsidiaries (“the Group”), which comprise the separate and consolidated statement of financial position as at 31 December 2016, and the separate and consolidated statements of income, comprehensive income, changes in equity and cash flows for the year then ended, and notes to the separate and consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying separate and consolidated financial statements present fairly, in all material respects, the financial position of the Parent and Group as at 31 December 2016 and their financial performance and their cash flows for the year then ended in accordance with International Financial Reporting Standards (“IFRSs”).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (“ISAs”). Our responsibilities under those standards are further described in the *Auditor’s Responsibilities for the Audit of the Separate and Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants’ Code of Ethics for Professional Accountants (“IESBA Code”), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the separate and consolidated financial statements of the current period. These matters were addressed in the context of our audit of the separate and consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have fulfilled the responsibilities described in the *Auditor’s Responsibilities for the Audit of the Separate and Consolidated Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the separate and consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying separate and consolidated financial statements.

INDEPENDENT AUDITOR’S REPORT

TO THE SHAREHOLDERS OF ANSA MERCHANT BANK LIMITED

Report on the Audit of the Separate and Consolidated Financial Statements

(Continued)

Key Audit Matters

(Continued)

Key audit Matters	How our audit addressed the key audit matter
Estimates used in the calculation of Insurance Contracts’ Liabilities	
Refer to Notes 2xix, 21 and 22. The Group has significant insurance liabilities of TT\$1.4 billion representing 26% of the Group’s total liabilities. The valuation of insurance contract liabilities involves extensive judgment and is dependent on a number of subjective assumptions, including primarily the timing and ultimate settlement value of long-term policyholder liabilities as well as the estimation of claims incurred, whether reported or not, for short term insurance contracts.	We involved our EY actuarial specialists to assist us in performing our audit procedures in this area, which included among others: <ul style="list-style-type: none">• Assessment of the key assumptions applied including consideration of emerging trends and studies on mortality and morbidity, voluntary terminations, persistency, interest rate, policy maintenance and administrative expenses, inflation, tax and lapse rates.
Various economic and non-economic key assumptions are being used to estimate the long-term liabilities. Specifically, the Group estimates the expected number and timing of deaths, persistency, future expenses and future investment income arising from the assets backing long term insurance contracts.	<ul style="list-style-type: none">• Recalculation of technical provisions produced by the models on a sample basis.
For short term insurance contracts, in calculating the estimated cost of unpaid claims (both reported and incurred but not reported (IBNR)), the Group uses a combination of loss-ratio-based estimates and estimates based upon actual claims experience.	<ul style="list-style-type: none">• An assessment of the internal controls regarding the maintenance of the policyholder database.
The Group uses valuation models to support the calculations of these insurance contract liabilities. The complexity of the models may give rise to errors as a result of inadequate/ incomplete data or the design or application of the models.	<ul style="list-style-type: none">• An analysis of the movements in insurance liabilities during the year. We assessed whether the movements are in line with changes in assumptions adopted by the Group, our understanding of developments in the business and our expectations derived from market experience.• We considered whether the Group’s disclosures in the consolidated financial statements in relation to insurance contact liabilities were compliant with IFRS.

INDEPENDENT AUDITOR’S REPORT

TO THE SHAREHOLDERS OF ANSA MERCHANT BANK LIMITED

Report on the Audit of the Separate and Consolidated Financial Statements
(Continued)

Key Audit Matters
(Continued)

Key audit Matters	How our audit addressed the key audit matter
Fair value measurement of investments securities and related disclosures	
<p>Refer to Notes 2vii, 3, 7 and 37. The Group invests in various investment securities, of which \$965 million (Parent: \$108 million) is carried at fair value in the statement of financial position. Additionally, the fair values are disclosed for \$2.3 billion (Parent: \$473 million) of investment securities carried at amortized cost in the statement of financial position . Of these assets, \$2 billion (Parent: \$299 million) are related to investments for which no published prices in active markets are available and have been classified as Level 2 and Level 3 assets within the IFRS fair value hierarchy.</p> <p>Valuation techniques for these investments can be subjective in nature and involve various assumptions regarding pricing factors. Associated risk management disclosure is complex and dependent on high quality data. A specific area of audit focus includes the determination of fair value of Level 2 and Level 3 assets where valuation techniques are applied in which unobservable inputs are used.</p> <p>For Level 2 assets, these techniques include the use of recent arm’s length transactions, reference to other instruments that are substantially the same and discounted cash flow analyses making maximum use of market inputs, such as the market risk free yield curve.</p> <p>Included in the Level 3 category are financial assets that are not quoted as there are no active markets to determine a price. The fair value of these assets cannot be measured reliably and are therefore held at cost, being the fair value of the consideration paid on acquisition. These assets are regularly assessed for impairment.</p>	<p>We independently tested the pricing on quoted securities, and we used our valuation specialists to assess the appropriateness of pricing models used by the Group. This included:</p> <ul style="list-style-type: none">• An assessment of the pricing model methodologies and assumptions against industry practice and valuation guidelines. Testing of the inputs used, including cash flows and other market based data.• An evaluation of the reasonableness of other assumptions applied such as credit spreads. The re-performance of valuation calculations on a sample basis of internally priced securities that were classified as higher risk and estimation. An assessment of management's impairment analysis.• Finally, we assessed whether the financial statement disclosures, including sensitivity to key inputs and the IFRS fair value hierarchy, appropriately reflect the Group’s exposure to financial instrument valuation risk.

INDEPENDENT AUDITOR’S REPORT

TO THE SHAREHOLDERS OF ANSA MERCHANT BANK LIMITED

Report on the Audit of the Separate and Consolidated Financial Statements
(Continued)

Key Audit Matters
(Continued)

Key audit Matters	How our audit addressed the key audit matter
Loan loss provisions	
<p>Refer to Notes 2vi, 3, 5, 6 and 38. Net investments in leased assets, loans and advances are 31% of the total assets of the Group (Parent: 51%) amounting to \$2.3 billion (Parent: \$1.8 billion).</p> <p>The appropriateness of loan loss provisions is a key area of judgement for management. The identification of impairment and the determination of the recoverable amount are inherently uncertain processes involving various assumptions and factors including the probability of default, financial condition of the counterparty, expected future cash flows, observable market prices and expected net selling prices. The use of different modelling techniques and assumptions could produce significantly different estimates of loan loss provisions.</p> <p>The disclosures relating to investments in leased assets, loans and advances are considered important to users of the consolidated financial statements given the estimation uncertainty and sensitivity of the valuations.</p>	<p>We evaluated and tested the Group's process and documented policy for loan loss provisioning.</p> <p>For loan loss provisions calculated on an individual basis we tested the factors underlying the impairment identification and quantification including forecasts of future cash flows, valuation of underlying collateral and estimates of recovery on default.</p> <p>For loan loss provisions calculated on a collective basis, we assessed the loan related data and challenged the assumptions used in the valuation models, mainly by back testing.</p> <p>Finally we focused on the adequacy of the Group’s financial statement disclosures regarding net investments in leased assets, loans and advances and the related loan loss provisions.</p>

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF ANSA MERCHANT BANK LIMITED

Report on the Audit of the Separate and Consolidated Financial Statements
(Continued)**Other information included in the Group's 2016 Annual Report**

Other information consists of the information included in the Group's 2016 Annual Report, other than the separate and consolidated financial statements and our auditor's report thereon. Management is responsible for the other information. The Group's 2016 Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the separate and consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the separate and consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the separate and consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Responsibilities of Management and the Audit Committee for the Separate and Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the separate and consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of separate and consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the separate and consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Parent's and Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Separate and Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the separate and consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these separate and consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF ANSA MERCHANT BANK LIMITED

Report on the Audit of the Separate and Consolidated Financial Statements
(Continued)**Auditor's Responsibilities for the Audit of the Separate and Consolidated Financial Statements**
(Continued)

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the separate and consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Parent's and Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the separate and consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Parent and Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the separate and consolidated financial statements, including the disclosures, and whether the separate and consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF ANSA MERCHANT BANK LIMITED

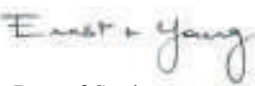

Report on the Audit of the Separate and Consolidated Financial Statements
(Continued)**Auditor's Responsibilities for the Audit of the Separate and Consolidated Financial Statements**
(Continued)

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the separate and consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner in charge of the audit resulting in this independent auditor's report is Pria Narinesingh.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

1. Principal activities of the Group

ANSA Merchant Bank Limited (the 'Bank' or 'Parent') is domiciled and was incorporated in the Republic of Trinidad and Tobago on 3 March 1977. Its registered office is located at ANSA Centre, 11 Maraval Road, Port of Spain. The Bank is licensed under the provisions of the Financial Institutions Act 2008 to carry on the following classes of business:

- Confirming House/Acceptance House
- Finance House/Finance Company
- Leasing Corporation
- Mortgage Institution
- Merchant Bank
- Trust Company
- Unit Trust
- Financial Services

The Bank has also been granted full Authorised Dealer Status by the Central Bank of Trinidad and Tobago under Section 5 of the Exchange Control Act, Chapter 79:50 and is authorised to take deposits, grant credit facilities and otherwise deal in foreign currency consistent with the terms of its licence.

The Bank has a primary listing on the Trinidad & Tobago Stock Exchange and was registered by the Trinidad and Tobago Securities and Exchange Commission as a reporting issuer on 18 December 1997. On 6 May 1999 under the Securities Industries Act 1995 the Bank was registered to conduct business as a securities company.

The ANSA Merchant Bank Group (the 'Group') is a financial services group comprising of the Parent and six subsidiaries at 31 December 2016. A full listing of the Group's subsidiaries is detailed in Note 11. The Group is engaged in a wide range of banking and financial related activities and carries on all classes of long-term and short-term insurance business and the rental of property in Trinidad and Tobago and the Caribbean. The ultimate parent of the Group is ANSA McAL Limited ('Ultimate Parent') which is incorporated in the Republic of Trinidad and Tobago.

2. Significant accounting policies

i) Basis of preparation

These financial statements of the Group have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016
(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)

2. Significant accounting policies (continued)**i) Basis of preparation (continued)**

These financial statements have been prepared on a historical cost basis, except for the fair value measurement of trading investment securities, investment properties and other financial assets not held in a business model whose objective is to hold assets to collect contractual cash flows or whose contractual terms do not give rise solely to payments of principal and interest.

The financial statements are presented in Trinidad and Tobago dollars (TT\$) which is the functional currency of the Parent and all values are rounded to the nearest thousand, except when otherwise indicated.

The consolidated financial statements provide comparative information in respect of the previous period. In addition, the Group presents an additional statement of financial position at the beginning of the preceding period when there is a retrospective application of an accounting policy, a retrospective restatement, or a reclassification of items in financial statements.

Presentation of financial statements

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position only when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liability simultaneously. Income and expense are not offset in the statement of income unless required or permitted by any accounting standard or interpretation, and as specifically disclosed in the accounting policies of the Group.

The Group presents its statement of financial position broadly in order of liquidity. An analysis of recovery or settlement in the 12 months after the statement of financial position date (current) and greater than 12 months after the statement of financial position date (non-current) is presented in Note 40.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016
(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)

2. Significant accounting policies (continued)**i) Basis of preparation (continued)****Basis of consolidation**

The consolidated financial statements comprise the financial statements of ANSA Merchant Bank Limited and its subsidiaries. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee;
- Rights arising from other contractual arrangements; and
- The Group's voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the statement of comprehensive income from the date the Group gains control until the date the Group ceases to control the subsidiary.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)**2. Significant accounting policies (continued)****i) Basis of preparation (continued)****Basis of consolidation (continued)**

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity, while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

The Bank established open-ended mutual funds in the following periods:

- 2005: ANSA Secured Fund
- 2007: ANSA US\$ Secured Fund
- 2010: ANSA TT\$ Income Fund and ANSA US\$ Income Fund

The Bank acts as the sponsor, investment manager, administrator and distributor of the Funds.

These mutual funds are financed through the issue of units to investors in the funds. The Group generates fees from managing the assets of the mutual funds and the Group's retirement benefit plans on behalf of third party interests. For the year ended 31 December 2016, the Group earned \$6 million (2015: \$6.8 million) in management fees from the retirement plans and \$18.8 million (2015: \$17.7 million) from the mutual funds.

The Group holds an interest of \$66 million in sponsored funds as at 31 December 2016 (2015: \$64.8 million). The maximum exposure to loss in these funds is the carrying value of the assets held by the Group.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)**2. Significant accounting policies (continued)****i) Basis of preparation (continued)****Basis of consolidation (continued)**

The Bank re-assessed whether or not it controls any investee in accordance with IFRS 10 – Consolidated Financial Statements. This assessment also extended to the Bank's open-ended mutual funds. The criteria for control includes:

- The power to govern the financial and operating policies;
- Exposure, or rights, to variable returns from its involvement; and
- The ability to use its power over the investee to affect the amount of the investor's returns.

Based on the application of this criteria, the Bank has consolidated the Funds into these financial statements. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases. The Parent accounts for investments in subsidiaries on a cost basis.

ii) Changes in accounting policies and disclosures

The accounting policies adopted in the preparation of these financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2015 except for the adoption of new standards and interpretations noted below.

New and amended standards and interpretations

The Group applied, for the first time, certain standards and amendments that became applicable for the 2016 financial year, however there was no impact on the amounts reported and/or disclosures in the financial statements.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)**2. Significant accounting policies (continued)****ii) Changes in accounting policies and disclosures (continued)***New and amended standards and interpretations (continued)***Amendments to IFRS 10, IFRS 12 and IAS 28 – Investment Entities: Applying the Consolidation Exception – Effective 1 January 2016**

The amendments address issues that have arisen in applying the investment entities exception under IFRS 10. The amendments to IFRS 10 clarify that the exemption from presenting consolidated financial statements applies to a parent entity that is a subsidiary of an investment entity, when the investment entity measures all of its subsidiaries at fair value.

Furthermore, the amendments to IFRS 10 clarify that only a subsidiary of an investment entity that is not an investment entity itself and that provides support services to the investment entity is consolidated. All other subsidiaries of an investment entity are measured at fair value. The amendments to IAS 28 allow the investor, when applying the equity method, to retain the fair value measurement applied by the investment entity associate or joint venture to its interests in subsidiaries.

These amendments must be applied retrospectively and are effective for annual periods beginning on or after 1 January 2016, with early adoption permitted. These amendments had no impact on the Group.

Amendments to IAS 1 – Disclosure Initiative – Effective 1 January 2016

The amendments to IAS 1 - Presentation of Financial Statements clarify, rather than significantly change, existing IAS 1 requirements. The amendments clarify:

- The materiality requirements in IAS 1;
- That specific line items in the statement(s) of profit or loss and OCI and the statement of financial position may be disaggregated;
- That entities have flexibility as to the order in which they present the notes to financial statements; and

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)**2. Significant accounting policies (continued)****ii) Changes in accounting policies and disclosures (continued)***New and amended standards and interpretations (continued)***Amendments to IAS 1 – Disclosure Initiative – Effective 1 January 2016 (continued)**

- That the share of OCI of associates and joint ventures accounted for using the equity method must be presented in aggregate as a single line item, and classified between those items that will or will not be subsequently reclassified to profit or loss.

Furthermore, the amendments clarify the requirements that apply when additional subtotals are presented in the statement of financial position and the statements of profit or loss and OCI. These amendments are effective for annual periods beginning on or after 1 January 2016, with early adoption permitted. These amendments had no impact on the Group.

Amendments to IAS 27 - Equity Method in Separate Financial Statements – Effective 1 January 2016

The amendments will allow entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in their separate financial statements. Entities already applying IFRS and electing to change to the equity method in its separate financial statements will have to apply that change retrospectively. For first-time adopters of IFRS electing to use the equity method in its separate financial statements, they will be required to apply this method from the date of transition to IFRS. The amendments are effective for annual periods beginning on or after 1 January 2016, with early adoption permitted. These amendments have no impact on the Group's financial statements.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)**2. Significant accounting policies (continued)****ii) Changes in accounting policies and disclosures (continued)***New and amended standards and interpretations (continued)***Amendments to IAS 16 and IAS 38 – Clarification of Acceptable Methods of Depreciation and Amortisation – Effective 1 January 2016**

The amendments clarify the principle in IAS 16 and IAS 38 that revenue reflects a pattern of economic benefits that are generated from operating a business (of which the asset is part) rather than the economic benefits that are consumed through use of the asset. As a result, a revenue-based method cannot be used to depreciate property, plant and equipment and may only be used in very limited circumstances to amortise intangible assets. The amendments are effective prospectively for annual periods beginning on or after 1 January 2016, with early adoption permitted. These amendments had no impact on the Group given that the Group has not used a revenue-based method to depreciate its non-current assets.

Annual Improvements to IFRSs 2012-2014 Cycle - Published September 2014

Certain limited amendments, which primarily consist of clarifications to existing guidance, were made to the following standards and are not expected to have a material impact on the financial statements:

- IFRS 5, 'Non-current Assets Held for Sale and Discontinued Operations'
- IFRS 7, 'Financial Instruments: Disclosures'
- IAS 19, 'Employee Benefits'
- IAS 34, 'Interim Financial Reporting'

These improvements are effective for annual periods beginning on or after 1 January 2016 and had no impact on the Group.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)**2. Significant accounting policies (continued)****ii) Changes in accounting policies and disclosures (continued)***New and amended standards and interpretations (continued)**Standards issued but not yet effective*

The Group is currently assessing the potential impact of the following new standards and interpretations and will adopt them when they are effective.

- Amendments to IAS 7 – Disclosure Initiative – Effective 1 January 2017
- Amendments to IAS 12 - Recognition of Deferred Tax Asset for Unrealised Losses - Effective 1 January 2017.
- Amendments to IFRS 4 – Applying IFRS 9 Financial Instruments with IFRS 4 Insurance Contracts – Effective 1 January 2018.
- IFRS 9, Phases 2 and 3 – Effective 1 January 2018.
- IFRS 15, 'Revenue from Contracts with Customers' – Effective 1 January 2018.
- IFRS 16, 'Leases' – Effective 1 January 2019.

iii) Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interest in the acquiree. For each business combination, the acquirer measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition costs incurred are expensed and included in administrative expenses.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)**iii) Business combinations and goodwill (continued)**

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of IAS 39 - Financial Instruments: Recognition and Measurement, is measured at fair value with the changes in fair value recognised in the statement of profit and loss.

Goodwill is initially measured at cost (being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests) and any previous interest held over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the re-assessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in the profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that is expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

ANSA MERCHANT BANK LIMITED

FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)**iii) Business combinations and goodwill (continued)**

Where goodwill has been allocated to a cash-generating unit (CGU) and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in this circumstance is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

iv) Cash and short-term funds

Cash and short-term deposits in the statement of financial position comprise cash at banks and on hand and short-term deposits with an original contractual maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

v) Statutory deposits with Central Banks

Pursuant to the provisions of Trinidad and Tobago, the Central Bank Act 1964 and the Financial Institutions Act 2008, the Bank is required to maintain with the Central Bank of Trinidad and Tobago statutory balances in relation to deposit liabilities and certain funding instruments of the institutions.

In addition, Consolidated Finance Co. Limited, a subsidiary of the Group, is required to maintain with the Central Bank of Barbados statutory deposit balances in relation to deposit liabilities. Those funds are not available to finance the subsidiary's day-to-day operations.

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016
(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)

2. Significant accounting policies (continued)**vi) Financial instruments****IFRS 9, 'Financial Instruments: Classification and Measurement'**

The Group early adopted IFRS 9, 'Financial Instruments' (Phase 1) (as issued in November 2009 and revised in November 2013), effective 1 January 2018. The Group applied the exemption given in the transitional provision for early application of IFRS 9.

Financial assets**a) Initial recognition and subsequent measurement**

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Amortised cost and effective interest method

Debt instruments that meet the following conditions are subsequently measured at amortised cost less impairment loss (except for debt instruments that are designated as at fair value through the statement of income on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016
(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)

2. Significant accounting policies (continued)**vi) Financial instruments (continued)****Financial assets (continued)****a) Initial recognition and subsequent measurement (continued)***Amortised cost and effective interest method (continued)*

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments measured subsequently at amortised cost. Interest income is recognised in the statement of income and is included in Note 26.

Financial assets at fair value through other comprehensive income (FVOCI)

On initial recognition, the Group can make an irrevocable election (on an instrument-by-instrument basis) to designate investments in equity instruments as at FVOCI. Designation at FVOCI is not permitted if the equity investment is held for trading.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016
(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)

2. Significant accounting policies (continued)**vi) Financial instruments (continued)****Financial assets (continued)****a) Initial recognition and subsequent measurement (continued)**

Financial assets at fair value through other comprehensive income (FVOCI)
(continued)

Investments in equity instruments at FVOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the investments revaluation reserve. The cumulative gain or loss will not be reclassified to the statement of income on disposal of the investments.

The Group does not have any equity instruments that are carried at FVOCI on initial application of IFRS 9 – *Financial Instruments*.

Financial assets at fair value through statement of income (FVSI)

Investments in equity instruments are classified as FVSI, unless the Group designates an investment that is not held for trading as fair value through other comprehensive income (FVOCI) on initial recognition. The Group has designated all investments in equity instruments that are held for trading as FVSI on initial application of IFRS 9.

Debt instruments that do not meet the amortised cost criteria are measured as FVSI. In addition, debt instruments that meet the amortised cost criteria but are designated as FVSI are measured at FVSI. A debt instrument may be designated as FVSI upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016
(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)

2. Significant accounting policies (continued)**vi) Financial instruments (continued)****Financial assets (continued)****a) Initial recognition and subsequent measurement (continued)**

Financial assets at fair value through statement of income (FVSI) (continued)

Debt instruments are reclassified from amortised cost to FVSI when the business model is changed such that the amortised cost criteria are no longer met. Reclassification of debt instruments that are designated as FVSI on initial recognition is not allowed. The Group has not designated any debt instrument as FVSI.

Financial assets at FVSI are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in the statement of income. The net gain or loss recognised in the statement of income is included in Note 26. Fair value is determined in the manner described in Note 37.

Interest income on debt instruments designated at FVSI is included in the net gain or loss described above.

Dividend income on investments in equity instruments at FVSI is recognised in the statement of income when the Group's right to receive the dividends is established in accordance with IAS 18 '*Revenue*' and is included in the net gain or loss described above.

Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period. The foreign exchange component forms part of its fair value gain or loss.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016
(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)

2. Significant accounting policies (continued)**vi) Financial instruments (continued)****Financial assets (continued)****a) Initial recognition and subsequent measurement (continued)***Foreign exchange gains and losses (continued)*

Therefore:

- for financial assets that are classified as FVSI, the foreign exchange component is recognised in the statement of income; and
- for financial assets that are designated as FVOCI, any foreign exchange component is recognised in other comprehensive income.

For foreign currency denominated debt instruments measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the financial assets and are recognised in the 'investment income' line item in the statement of income.

b) Impairment of financial assets

The Group assesses at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016
(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)

2. Significant accounting policies (continued)**vi) Financial instruments (continued)****Financial assets (continued)****b) Impairment of financial assets (continued)**

For financial assets carried at amortised cost, the Group first assesses whether impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

The amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding credit losses that have not yet been incurred) reflecting the amount of collateral and guarantee, discounted at the financial asset's original effective interest rate.

The carrying amount of the asset is reduced through the use of an allowance account and the loss is recognised in the statement of profit or loss. Interest income (recorded as finance income in the statement of profit or loss) continues to be accrued on the reduced carrying amount using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Loans, together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the Group. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited to finance costs in the statement of profit or loss.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)**2. Significant accounting policies (continued)****vi) Financial instruments (continued)****Financial assets (continued)****c) Derecognition of financial assets**

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in the statement of income. On derecognition of a financial asset that is classified as FVOCI, the cumulative gain or loss previously accumulated in the investment revaluation reserve is not reclassified to the statement of other comprehensive income, but is reclassified to retained earnings.

Financial liabilities**a) Initial recognition and subsequent measurement**

Financial liabilities within the scope of IFRS 9 are classified as financial liabilities at fair value through the statement of income, loans and borrowings, or as derivatives designated as hedging instruments in an effective hedge as appropriate.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)**2. Significant accounting policies (continued)****vi) Financial instruments (continued)****Financial liabilities (continued)****a) Initial recognition and subsequent measurement (continued)**

The Group determines the classification of its financial liabilities at initial recognition. All financial liabilities are recognised initially at fair value. The Group's financial liabilities include other payables, bank overdrafts, deposit liabilities and debt securities in issue. The Group has not designated any financial liabilities upon initial recognition as at fair value through statement of income.

b) Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or has expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the statement of income.

vii) Fair value measurement

The Group measures certain financial instruments at fair value at each year end. Also, fair values of financial instruments measured at amortised cost are disclosed in Note 37. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)**2. Significant accounting policies** (continued)**vii) Fair value measurement** (continued)

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Insurance contracts

With the exception of insurance contracts which are specifically excluded under IFRS 7, the estimated fair values of certain financial instruments have been determined using available market information or other appropriate valuation methodologies that require judgment in interpreting market data and developing estimates.

Consequently, estimates made do not necessarily reflect the amounts that the Group would realise in a current market exchange. The use of different assumptions and/or different methodologies may have a material effect on the fair values estimated. The fair value information is based on information available to management as at the dates presented.

Although management is not aware of any factors that would significantly affect the fair value amounts, such amounts have not been comprehensively revalued for the purposes of these financial statements and, therefore, the current estimates of the fair value may be significantly different from the amounts presented herein.

Short-term financial assets and liabilities

The carrying amount of short-term financial assets and liabilities comprising cash and short-term funds, fixed deposits, interest receivable and insurance receivable and other debtors, customer deposits and other funding instruments, accrued interest and other payables are a reasonable estimate of their fair values because of the short maturity of these instruments.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)**2. Significant accounting policies** (continued)**vii) Fair value measurement** (continued)*Investment securities*

The fair value of trading investments is based on market quotations, when available. When market quotations are not readily available, fair values are based on discounted cash flows or estimated using quoted market prices of similar investments. In the absence of a market value, discounted cash flows will approximate fair value. This process relies on available market data to generate a yield curve for each country in which valuations were undertaken, using interpolated results where there were no market observable rates.

In pricing callable bonds, where information is available, the price of a callable bond is determined as at the call date using the yield to worst. For bonds with irregular cash flows (sinking funds, capitalisation of interest, moratoria, amortisations or balloon payments) a process of iteration using the internal rate of return is used to arrive at bond values. Yields on all tax-free bonds are grossed-up to correspond to similar taxable bonds at the prevailing rate of corporation tax.

Loans and advances

The estimated fair value for performing loans is computed as the future cash flows discounted and the yield to maturity based on the carrying values as the inherent rates of interest in the portfolio as those rates approximate market conditions. When discounted, the cash flow values are equal to the carrying value.

Debt securities in issue

The Group values the debt and asset-backed securities using valuation models which use discounted cash flow analysis which incorporates either only observable data or both observable and non-observable data. Observable inputs include assumptions regarding current rates of interest and real estate prices; unobservable inputs include assumptions regarding expected future default rates, prepayment rates and liquidity discounts.

Determination of fair value and fair value hierarchies

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)**vii) Fair value measurement (continued)***Determination of fair value and fair value hierarchies (continued)*

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation techniques:

Level 1

Included in the Level 1 category are financial assets and liabilities that are measured in whole or in part by reference to published quotes in an active market. A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency and those prices represent actual and regularly occurring market transactions on an arm's length basis.

Level 2

Included in the Level 2 category are financial assets and liabilities that are measured using a valuation technique based on assumptions that are supported by prices from observable current market transactions and for which pricing is obtained via pricing services, but where prices have not been determined in an active market. This includes financial assets with fair values based on broker quotes, investments in private equity funds with fair values obtained via fund managers and assets that are valued using the Group's own models whereby the majority of assumptions are market observable.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)**vii) Fair value measurement (continued)***Determination of fair value and fair value hierarchies (continued)*Level 3

Included in the Level 3 category are financial assets and liabilities that are not quoted as there are no active markets to determine a price. These financial instruments are held at cost, being the fair value of the consideration paid for the acquisition of the investment, and are regularly assessed for impairment.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

viii) Repurchase and reverse repurchase agreements

Securities sold subject to a linked repurchase agreement ('repo') are retained in the financial statements as trading securities and the counterparty liability is included in amounts due to other banks, deposits from banks or other deposits as appropriate. Securities purchased under an agreement to resell ('reverse repo') are recorded as loans and advances to other banks. The difference between the sale and repurchase price is treated as interest and accrued over the life of the repo agreement using the effective yield.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)**ix) Product classification***Insurance contracts*

IFRS 4 - Insurance Contracts defines insurance contracts as those containing significant insurance risk at the inception of the contract. The significance of insurance risk is dependent on both the probability of an insured event and the magnitude of its potential effect. Long-term insurance contracts include those contracts with and without discretionary participation features ('DPF'). For insurance contracts with DPFs, the guaranteed element has not been recognised separately. Changes to the insurance contract liability are recognised in the statement of income as an item of expense.

Once a contract has been classified as an insurance contract, it remains an insurance contract for the remainder of its lifetime, even if the insurance risk reduces significantly during this period.

Investment contracts

Any insurance contracts not considered to be transferring significant risk are, under IFRS, classified as investment contracts. Deposits collected and benefit payments under investment contracts are not accounted for through the statement of income, but are accounted for directly through the statement of financial position as a movement in the investment contract liability. Changes in the fair value of financial assets backing investment contracts are recognised in the statement of income as investment income.

x) Interest bearing debt and borrowings

Borrowings and interest bearing debt are initially recognised at the fair value of the consideration received, net of transaction costs incurred. After initial recognition, these borrowings are subsequently measured at amortised cost using the effective interest rate method. Amortised cost is calculated by taking into account any transaction cost discount or premium on issue. Gains and losses are recognised in the income statement when the liabilities are derecognised, as well as through the amortisation process.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)**xi) Insurance receivables**

Insurance receivables are recognised when due. The carrying value of insurance receivables is reviewed for impairment whenever events or circumstances indicate that the carrying amount may not be recoverable, with the impairment loss recorded in the statement of income.

xii) Reinsurance assets

The Group cedes reinsurance in the normal course of business. Reinsurance assets primarily include balances due from reinsurance companies for ceded insurance liabilities. Premiums on reinsurance assumed are recognised as revenue in the same manner as they would be if the reinsurance were considered direct business, taking into account the product classification of the reinsured business. Amounts due to reinsurers are estimated in a manner consistent with the associated reinsured policies and in accordance with the reinsurance contract. Premiums ceded and claims reimbursed are presented on a gross basis.

The benefit to which the Group is entitled under its reinsurance contract held is recognised as reinsurance assets. These assets consist of short-term balances due from reinsurers, as well as longer term receivables that are dependent on the expected claims and benefits arising under the related reinsured insurance contract.

An impairment review is performed on all reinsurance assets when an indication of impairment occurs. Reinsurance assets are impaired only if there is objective evidence that the Group may not receive all amounts due to it under the terms of the contract and it can be measured reliably.

xiii) Taxation*Current income tax*

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in the countries where the Group operates and generates taxable income.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016
(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)

2. Significant accounting policies (continued)

xiii) Taxation (continued)

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all applicable taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax losses can be utilised.

Current and deferred tax shall be recognised as income or an expense and included in profit or loss for the period, except to the extent that the tax arises from a transaction or event which is recognised, in the same or a different period, outside profit or loss, either in other comprehensive income or directly in equity and a business combination.

xiv) Investment properties

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes.

Investment properties are initially measured at cost, including transaction costs. The carrying amount includes the cost of replacing part of an existing investment property, at the time that cost is incurred, if the recognition criteria is met and excludes the costs of day-to-day servicing of an investment property. Subsequent to initial recognition, investment properties are measured annually by fair values either by way of Directors' internal valuations or by an accredited external, independent valuator. Directors use discounted cash flow models and assumptions which reflect the market conditions at the reporting date. External valuers apply valuation models recommended by the International Valuation Standards Committee. Each property is externally valued at least once every three years.

Gains or losses arising from changes in the fair values of investment properties are included in the statement of income in the period in which they arise.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016
(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)

2. Significant accounting policies (continued)

xiv) Investment properties (continued)

Investment properties are derecognised when they have either been disposed of or when the investment property is permanently withdrawn from use and no future economic benefits are expected. Any gain or loss arising on disposal is recognised in the statement of income.

Transfers are made to or from investment property only when there is a change in use. If owner occupied property becomes investment property, the Group accounts for such property in accordance with the policy under property and equipment up to the date of change in use.

xv) Property, equipment and leased assets

Property and equipment are stated at historical cost net of accumulated depreciation and/or accumulated impairment loss, if any. Depreciation is provided on the straight line or reducing balance method at various rates sufficient to write off the cost of the assets over their estimated useful lives. Leasehold improvements are provided on a straight-line basis. All other repair and maintenance costs are recognised in the statement of income as incurred.

The rates used are as follows:	% per annum
Building	2
Motor vehicles	20 - 33⅓
Computer equipment	25 - 33⅓
Leasehold improvements	10 - 20
Office furniture, machinery and equipment	10 - 33⅓
Leased vehicles and equipment	20

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016
(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)

2. Significant accounting policies (continued)**xv) Property, equipment and leased assets (continued)**

Depreciation is computed over the estimated useful life of the asset. The estimated useful lives of property and equipment are reviewed annually and adjusted prospectively if appropriate. Investment property which is owner occupied is accounted for as property and equipment. Where the carrying value of an item of property and equipment exceeds the recoverable amount, the excess would be immediately taken to the statement of income. An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset is included in the statement of income.

Assets that are subject to depreciation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Where the carrying amount of an asset is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount. The asset's recoverable amount is the higher of the asset's fair value less cost to sell and the value in use.

Repossessed stock, are valued at the lower of the carrying amount and fair value less estimated cost to sell.

xvi) Leases*Finance leases (Group as Lessor)*

Leases where the Group is the Lessor and transfers substantially all the risks and rewards of ownership of the leased asset to the lessee is treated as a finance lease. The amount due from customers under such finance lease arrangements is presented in the consolidated statement of financial position as net investment in leased assets.

Operating leases (Group as Lessor)

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments received under operating leases are credited to the consolidated statement of income over the period of the lease. Renewal of operating leases is based on mutual agreement between parties prior to the expiration date.

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016
(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)

2. Significant accounting policies (continued)**xvi) Leases (continued)***Operating leases (Group as Lessor) (continued)*

Assets leased out under operating leases are included in leased assets in the statement of financial position. They are depreciated over their expected useful lives on a basis consistent with similar property and equipment.

xvii) Intangible assets*Goodwill*

Goodwill arises on the acquisition of subsidiaries and represents the excess of the consideration transferred over the Group's interest in net fair value of the net identifiable assets, liabilities and contingent liabilities of the acquiree and the fair value of the non-controlling interest in the acquiree.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units (CGUs), or groups of CGUs, that is expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

Goodwill impairment reviews are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of goodwill is compared to the recoverable amount, which is the higher of value in use and the fair value less costs of disposal. Any impairment is recognised immediately as an expense and is not subsequently reversed.

Brands

Separately acquired brands are shown at historical cost. Brands acquired in a business combination are recognised at fair value at the acquisition date. Brands have an indefinite useful life and impairment tests are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment.

FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)**xviii) Employee benefits**

The ANSA McAL Pension Plan for Monthly Paid Employees is a hybrid plan with both defined benefit and defined contribution characteristics for its members. It is governed by trust deed and rules dated 17 September 1965 and encompass all eligible full time employees of the ANSA McAL Group of Companies. The Plan was registered to carry on business in Trinidad and Tobago on 31 October 1973.

The Trustees of the plan have elected to fund the benefits by means of a Segregated Asset Plan with Tatil Life Assurance Limited by way of an agreement dated 1 October 1984. Effective 1 January 2009, the name of the plan was changed to the ANSA McAL Pension Plan for Monthly Paid Employees from Alston's Pension Fund Plan and from this date all new entrants to the Plan were admitted to a defined contribution scheme.

Defined benefit plan

The pension accounting costs for the defined benefit plan are assessed using the projected unit credit method. Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding net interest (not applicable to the Group) and the return on plan assets (excluding net interest), are recognised immediately in the statement of financial position with a corresponding debit or credit to retained earnings through the statement of other comprehensive income in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods. The maximum economic benefits available, as limited by the asset ceiling will crystallise in the form of reductions in future contributions.

Past service costs are recognised in the statement of income on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Group recognises restructuring-related costs

FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)**xviii) Employee benefits (continued)**

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises the following changes in the net defined benefit obligation under 'general administration expenses' in the statement of income (by function) Note 33:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income.

Other post-employment benefit plan

The Group also provides other post-employment benefits to their retirees. These benefits are unfunded. The entitlement to these benefits is based on the employee remaining in service up to retirement age and the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment, using an accounting methodology similar to that for the defined benefit plans.

Defined contribution plan

Under the defined contribution plan, the Group has no further payment obligations once the contributions have been paid. Contributions are recognised as an expense when they are due.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)**xix) Insurance contract liabilities***Life insurance contract liabilities*

The provision for a life insurance contract is calculated on the basis of a cash flow matching method where the expected cash flows are based on prudent assumptions depending on the circumstances prevailing. The liability is determined as the sum of the discounted value of the expected benefit payments and the future administration expenses that are directly related to the contract, less the expected discounted value of the actual gross premiums that would be paid over the expected future lifetime of the contract. The liability is based on best estimate assumptions as to mortality, persistency, investment income and maintenance expenses that are expected to prevail over the life of the contract. A margin for adverse developments is added to each best estimate assumption to provide a prudent estimate of possible future claims. Adjustments to the liabilities at each end of reporting period are recorded in the statement of income as an expense.

General insurance contract liabilities

General insurance contract liabilities are based on the estimated ultimate cost of all claims incurred but not settled at year end, whether reported or not. Significant delays can be experienced in the notification and settlement of certain types of general insurance claims, particularly in respect of liability business, therefore the ultimate cost cannot be known with certainty at the statement of financial position date.

Provision for unearned premiums

The proportion of written premiums attributable to subsequent periods is deferred as unearned premiums. The change in the provision for unearned premium is taken to the statement of income in the order that revenue is recognised over the period of risk.

Liability adequacy test

In accordance with IFRS 4, reserving for liabilities existing as at the statement of financial position date from property and casualty lines of business has been tested for adequacy by independent actuarial consultants using the Bornhuetter-Fergusson model.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)**xix) Insurance contract liabilities (continued)***Liability adequacy test (continued)*

The Bornhuetter-Fergusson model can be summarised as follows:

- This valuation method makes an independent estimate of the gross ultimate claims to a corresponding premium for each underwriting year based on expectations of claims arising from the gross premiums written in that year;
- It estimates a claim run-off pattern of how claims emerge year by year until all is known about the total ultimate claim;
- From the independent estimate of gross ultimate claims, the portion that relates to past periods is removed and the resultant balance is the gross claims yet to emerge.

The independent actuaries concluded in their report dated 9 February 2017 that the carrying amounts of the insurance liabilities of the general insurance subsidiary as at 31 December 2016, in respect of incurred but not reported (IBNR) claims and claims from unexpired contracts were adequate.

Provision for unexpired risk

Provision for unexpired risk is computed as a percentage of the provision for unearned premiums at the end of the year. At each statement of financial position date, liability adequacy tests are performed to ensure the adequacy of the insurance liabilities. Any deficiency is charged to the statement of income by subsequently establishing a provision for losses arising from the liability adequacy tests (the unexpired risk provision).

xx) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)**xx) Provisions (continued)**

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

xxi) Guarantee reserve fund

The Bank has guaranteed 100% return of the principal invested in ANSA Secured Fund and ANSA US\$ Secured Fund, subject to minimum period of investment and a fixed minimum yield on the units held subject to a defined period of time, established at the time of purchase.

The Bank establishes a guarantee reserve fund as a liability on its statement of financial position through the statement of income for any shortfalls that may arise under the guarantee, as required. At each end of reporting period, the Bank values these guarantees and any changes required are adjusted accordingly through the statement of income.

xxii) Revenue recognition

Revenue is considered to the extent that it is probable that economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment was made. Revenue is measured at the fair value of the consideration received or receivable, excluding discounts, rebates, and other sales taxes. The following specific recognition criteria must also be met before revenue is recognised.

Loans and advances

Income from loans, including origination fees, is recognised on an amortised basis. Interest is accounted for on the accruals basis except where a loan contractually becomes three months in arrears at which point the accrued interest is suspended and subsequently accounted for on a cash basis until the arrears are cleared.

FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)**xxii) Revenue recognition (continued)***Investment income*

Interest income is recognised in the statement of income as it accrues, taking into account the effective yield of the asset or an applicable floating rate. Interest income includes the amortisation of any discount or premium on the constant yield basis. Investment income also includes dividends and any fair value changes.

Interest income is accrued until the investment contractually becomes three months in arrears at which time the interest is suspended and then accounted for on a cash basis until the investment is brought up to date.

Dividend income

Dividend income is recognised when the Group's right to receive the payment is established.

Rental income

Rental income from investment property under operating leases is recognised in the statement of income on a straight line basis over the term of the lease.

Premium income

Premiums from life insurance contracts are recognised as revenue when payable by the policyholders. For single premium business this is the date from which the policy becomes effective. For non-life business, premiums written are recognised on policy inception and earned on a pro-rata basis over the term of the related policy coverage.

Premiums written on general insurance policies are recognised on policy inception and earned on a pro-rata basis over the term of the related policy coverage. For single premium business this is the date from which the policy is effective.

Reinsurance premiums

Reinsurance premiums are recognised when the right to receive the gross premium is recognised in accordance with the relevant reinsurance contract.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)**2. Significant accounting policies (continued)****xxii) Revenue recognition (continued)***Fees and commissions*

Unless included in the effective interest calculation, fees are recognised on an accrual basis as the service is provided. Fees and commissions not integral to the effective interest arising from negotiating or participating in the negotiation of a transaction from a third party are recognised on completion of the underlying transaction. Portfolio and other management advisory and service fees are recognised based on the applicable service contract.

Other income and expenditure

Other income and expenditure, inclusive of borrowing costs, are brought into account on the accruals basis.

xxiii) Deposit insurance contribution

The Central Bank of Trinidad and Tobago and the Financial Institutions (Non-Banking) (Amendment) Act 1986 of Trinidad and Tobago established a Deposit Insurance Fund for the protection of depositors. An annual premium of 0.2% is levied on the average deposit liability outstanding at the end of each quarter of the preceding year.

The Barbados Deposit Insurance Corporation in accordance with the Deposit Insurance Act 2006-29 of Barbados established a Deposit Insurance Fund for the protection of depositors. An annual premium of 0.05% is levied on the average deposit liability outstanding at the end of each quarter of the preceding year.

xxiv) Benefits and claims*Life insurance*

Life insurance business claims reflect the cost of all claims incurred during the year. Death claims and surrenders are recorded on the basis of notifications received. Maturities and annuity payments are recorded when due.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)**2. Significant accounting policies (continued)****xxiv) Benefits and claims (continued)***General insurance*

Reported outstanding general insurance claims comprise the estimated costs of all claims incurred but not settled at the end of the reporting period, less any reinsurance recoveries. In estimating the liability for the cost of reported claims not yet paid, the Group considers any information available from adjusters and information on the cost of settling claims with similar characteristics in previous periods. Provision is made for claims incurred but not reported (IBNR) until after the end of the reporting period. Differences between the provisions for outstanding claims and subsequent revisions and settlement are included in the statement of income in the year the claims are settled.

Reinsurance claims

Reinsurance claims are recognised when the related gross insurance claim is recognised according to the terms of the relevant reinsurance contract.

xxv) Lapses - Life Insurance

Policies will lapse and the Group's liability will cease:

- i. At the end of the grace period (30 days) for any unpaid premium unless the premium or part of it is advanced under the automatic premium loan provision or the policy is changed to paid up or;
- ii. At the end of the pro-rated period for which insurance is provided if part of an unpaid premium was advanced under the automatic loan provision; or
- iii. At the end of the 30 day period following the mailing of a lapse notice indicating that the indebtedness equals or exceeds the gross cash value.

xxvi) Foreign currency translation*Functional and presentation currency*

The individual financial statements of each group entity is presented in the currency of the primary economic environment, in which the entity operates (its functional currency). The separate and consolidated financial statements are expressed in Trinidad and Tobago dollars, which is the functional currency of the parent.

FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)**xxvi) Foreign currency translation (continued)***Foreign currency transactions*

Monetary assets and liabilities denominated in foreign currencies are expressed in Trinidad and Tobago Dollars at rates of exchange ruling at the statement of financial position date. Non-monetary assets and liabilities are translated using exchange rates that existed at the date of the initial transaction. All revenue and expenditure transactions denominated in foreign currencies are translated at mid-exchange rates and the resulting profits and losses on exchange from these trading activities are dealt with in the statement of income.

Foreign entities

On consolidation, the assets and liabilities of foreign operations are translated into Trinidad and Tobago Dollars at the rate of exchange prevailing at 31 December and their statements of profit or loss are translated at an average exchange rate. The exchange differences arising on translation for consolidation are recognised in OCI.

xxvii) Equity movements*Stated capital*

Ordinary stated capital is classified within equity and is recognised at the fair value of the consideration received by the Group. Incremental costs directly attributable to the issue of new shares are shown as a reduction in equity, net of tax. As equity is repurchased, the amount of consideration paid is recognised as a charge to equity and reported in the statement of financial position as treasury shares.

Dividends on ordinary share capital

Dividends on ordinary shares are recognised as a liability and deducted from equity when they are approved by the Group's Board of Directors. Dividends are deducted from equity when they are paid.

Dividends for the year that are approved after the statement of financial position date are dealt with as an event after the end of reporting date.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)**xxviii) Statutory reserve fund**

The Financial Institutions Act 2008 of Trinidad and Tobago requires that not less than 10% of the net profit of the Bank after deduction of taxes in each year be transferred to a statutory reserve fund until the balance standing to the credit of this reserve is equal to the paid up capital of the Bank.

The Financial Institutions Act 1996 of Barbados, requires that a minimum of 15% of annual net income be appropriated to a reserve fund until the balance of such funds equals the stated capital of Consolidated Finance Co Limited.

xxix) Catastrophe reserve

On an annual basis, the Group determines an amount that is transferred to a catastrophe reserve. This is treated as an appropriation of retained earnings and is disclosed as part of the statutory reserve fund in the statement of financial position.

xxx) Statutory surplus reserve

As required by Section 171 of the Insurance Act 1980 of Trinidad and Tobago at least 25% of an insurance company's profit from general insurance business, for the preceding year is to be appropriated towards a statutory surplus reserve until such surplus equals or exceeds the reserves in respect of its outstanding unexpired policies. This reserve is not distributable.

xxxi) General loan loss reserve

The Bank has established a general reserve for loan losses in accordance with the guidelines issued by the Central Bank of Trinidad and Tobago. The reserve has been calculated at one half of one percent of the loan balance at the year-end and encompasses hire purchase loans, finance leases and premium financing loans after deducting unearned finance charges. This reserve has been accounted for as an appropriation of retained earnings and is disclosed in the statement of changes in equity.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)**xxxii) Earnings per share**

Earnings per share have been calculated by taking the profit for the year attributable to shareholders over the weighted average number of ordinary shares outstanding during the year net of treasury shares (2016: \$2.94; 2015: \$2.89). There are no dilutive ordinary shares in issue.

xxxiii) Salvage and subrogation reimbursements

Some insurance contracts permit the Group to sell (usually damaged) property acquired in settling a claim (salvage). Salvage is recognised on a cash receipts basis.

The Group may also have the right to pursue third parties for payment of some or all costs (subrogation). Subrogation reimbursements are also considered as an allowance in the measurement of the insurance liability for claims and are recognised in other assets when the liability is settled. The allowance is the assessment of the amount that can be recovered from the action against the liable third party.

xxxiv) Impairment of non-financial assets

The Group assesses at each reporting date whether there is an indication that a non-financial asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash generating unit's fair value less costs to sell and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Group makes an estimate of recoverable amount. A previous impairment loss is reversed only if there has been a change in the estimate used to determine the asset's recoverable amount since the last impairment loss was recognised.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

2. Significant accounting policies (continued)**xxxiv) Impairment of non-financial assets (continued)**

If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the assets in prior years. Such reversal is recognised in the statement of income unless the asset is carried at the revalued amount, in which case the reversal is treated as a revaluation increase.

3. Significant accounting judgements and estimates in applying Group policies

The preparation of the Group's consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Other disclosures relating to the Group's exposure to risks and uncertainties includes:

- Financial instruments risk management (Note 38)
- Capital management (Note 39)

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

3. Significant accounting judgements and estimates in applying Group policies (continued)**i) Judgements**

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the separate and consolidated financial statements:

Finance lease commitments – Group as lessor (Note 5)

Leases are classified as finance leases whenever the terms of the leases transfer substantially all of the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Operating lease commitments – Group as lessor (Note 12)

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a major part of the economic life of the commercial property and the present value of the minimum lease payments not amounting to substantially all of the fair value of the commercial property, that it retains all the significant risks and rewards of ownership of these properties and accounts for the contracts as operating leases.

Property and equipment (Note 13)

Management exercises judgement in determining whether costs incurred can accrue sufficient future economic benefits to the Group to enable the value to be treated as a capital expense. Further judgement is used upon annual review of the residual values and useful lives of all capital items to determine any necessary adjustments to carrying value.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

3. Significant accounting judgements and estimates in applying Group policies (continued)**i) Judgements (continued)***Impairment of financial assets*

Management makes judgements at each statement of financial position date to determine whether financial assets are impaired. Financial assets are impaired when the carrying value is greater than the recoverable amount and there is objective evidence of impairment. The recoverable amount is the present value of the future cash flows.

Assessment of control

Management uses judgement in performing a control assessment review on all mutual funds and retirement plans sponsored by the Group and its subsidiaries. This assessment revealed that the Group is able to exercise control, as defined by IFRS 10, over the activities of the funds. However this control does not extend to the Group's retirement plans.

ii) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the separate and consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Impairment of goodwill (Note 14)

The Group assesses whether there are any indicators that goodwill is impaired at each reporting date. Goodwill is tested for impairment annually and when circumstances indicate that the carrying value may be impaired.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016
(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)

3. Significant accounting judgements and estimates in applying Group policies (continued)**ii) Estimates and assumptions (continued)***Impairment of goodwill (Note 14) (continued)*

Impairment is determined for goodwill by assessing the recoverable amount of the cash-generating units, to which the goodwill relates. Where the recoverable amount of the cash-generating units is less than their carrying amount an impairment loss is recognised. The Group performs its annual impairment test of goodwill as at 31 December. Previously recorded impairment losses for goodwill are not reversed in future periods.

When goodwill forms part of a cash-generating unit (or group of cash-generating units) and part of the operations within that unit is disposed of, the goodwill associated with the operations disposed of is included in the carrying amount of the operation to determine the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operations disposed of and the portion of the cash-generating units retained.

Deferred taxes (Note 15)

In calculating the provision for deferred taxation, management uses judgment to determine the possibility that future taxable profits will be available to facilitate utilisation of temporary tax differences which may arise.

Pension and other post-employment benefits (Note 16)

The cost of defined benefit pension plans and other post-employment medical benefits is determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates and future pension increases. Due to the long term nature of these plans, such estimates are subject to significant uncertainty.

Insurance contract liabilities (Note 21)

The estimation of the ultimate liability arising from claims made under life and general insurance contracts is an accounting estimate. There are several sources of uncertainty that need to be considered in the estimation of the liability that the Group will ultimately pay for those claims.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016
(Expressed in thousands of Trinidad and Tobago dollars)
(Continued)

3. Significant accounting judgements and estimates in applying Group policies (continued)**ii) Estimates and assumptions (continued)***Insurance contract liabilities (Note 21) (continued)*

For the life insurance contracts, estimates are made as to the expected number of deaths for each of the years in which the Group is exposed to risk. The Group based these estimates on standard industry mortality tables that reflect historical mortality experience, adjusted where appropriate to reflect the Group's unique risk exposure. The number of deaths determines the value of possible future benefits to be paid out which will be factored into ensuring sufficient cover reserves, which in return is monitored against current and future premiums. For those contracts that insure risk to longevity, prudent allowance is made for expected future mortality improvements, both epidemic, as well as wide ranging changes to lifestyle, could result in significant changes to the expected future mortality exposure. All of this results in even more uncertainty in estimating the ultimate liability.

Estimates are also made as to future investment income arising from the assets backing life insurance contracts. These estimates are based on current market returns as well as expectations about future economic and financial developments.

Estimates for future deaths, voluntary terminations, investment returns and administration expenses are determined at the inception of the contract and are used to calculate the liability over the term of the contract. At each end of reporting period, these estimates are reassessed for adequacy and changes will be reflected in adjustments to the liability.

For general insurance contracts, estimates have to be made both for the expected ultimate cost of claims reported at the end of a reporting period and for the expected ultimate cost of claims incurred but not yet reported (IBNR) at the end of a reporting period. It can take a significant period of time before the ultimate claims costs can be established with certainty. The primary technique adopted by management in estimating the cost of notified and IBNR claims is that of using past claim settlement trends to predict future claims settlement estimates. At each end of reporting period, prior year claims estimates are reassessed for adequacy and changes are made to the provision. General insurance claims provisions are not discounted for the time value of money.

ii) Estimates and assumptions (continued)

Valuation of investments (Note 37)

Fair values are based on quoted market prices for the specific instrument, comparisons with other similar financial instruments, or the use of valuation models. Establishing valuations where there are no quoted market prices inherently involves the use of judgment and applying judgment in establishing reserves against indicated valuations for aged positions, deteriorating economic conditions (including country specific risks), concentrations in specific industries, types of instruments or currencies, market liquidity, model risk itself and other factors.

4. Cash and short-term funds

Parent			Group

11. Investment in subsidiaries

		Parent	
		2016	2015
At beginning of the period			
Acquisitions during the year (Note 41)		632,500	632,500
At end of the period		177,820	–
The consolidated financial statements include the subsidiaries listed in the following table:		<u>810,320</u>	<u>632,500</u>
Name of Company	Country of incorporation and operation	Proportion of issued capital held 31-Dec-16	Proportion of issued capital held 31-Dec-15
Trinidad and Tobago Insurance Limited	Trinidad and Tobago	100%	100%
TATIL Life Assurance Limited	Trinidad and Tobago	99.93%	99.93%
TATIL Re Limited	St Lucia	100%	100%
ANSA Securities Limited	Trinidad and Tobago	100%	100%
ANSA Financial Holdings (Barbados) Limited	Barbados	100%	Nil
Consolidated Finance Co. Limited	Barbados	100%	Nil

The transfer of assets from the subsidiaries to the parent is subject to approval by the relevant governance committees including the Board of Directors of the individual subsidiaries. Further, TATIL Life Assurance Limited requires approval by the Central Bank of Trinidad and Tobago for instances of a distribution of capital approved by the Board of Directors.

On 3 October 2016, the Bank capitalised ANSA Financial Holdings (Barbados) Limited and was issued 100% of its share capital. Also on that date the Bank completed the acquisition of 100% of the financial services business of Consolidated Finance Co. Limited (CFC) and as a result of that acquisition ANSA Financial Holdings (Barbados) Limited is now the immediate parent company of CFC. Details of the acquisition are disclosed in Note 41 of these financial statements.

Goodwill

On 1 January 2004, the Bank acquired 100% of the issued ordinary shares of Trinidad and Tobago Insurance Limited.

The cost of acquisition was \$622.5 million, resulting in goodwill of \$133.8 million. The purchase consideration was discharged by the issuance of 54,605,263 new ordinary shares of the Bank at a price of \$11.40 per share, which was the publicly listed price at 31 December 2003. As at 30 September 2010, the Bank invested \$10 million into its subsidiary ANSA Securities Limited which represents 100% of its shareholding.

On 3 October 2016, the Bank capitalised ANSA Financial Holdings (Barbados) Limited and was issued 100% of its share capital. Also on that date the Bank completed the acquisition of 100% of the financial services business of Consolidated Finance Co. Limited (CFC) and as a result of that acquisition ANSA Financial Holdings (Barbados) Limited is now the immediate parent company of CFC. Details of the acquisition are disclosed in Note 41 of these financial statements.

The cost of transaction was \$177.9 million, resulting in provisional goodwill of \$2.6 million. Further details are provided in Note 41 of these financial statements.

Brands

On 1 May 2015, Trinidad and Tobago Insurance Limited (TATIL), a wholly owned subsidiary of the Bank acquired the assets and assumed the liabilities of Brydens Insurance Inc., a 100% indirect subsidiary of ANSA McAL (Barbados) Limited. As required by IFRS 3 - Business Combinations, the Brand Name of Brydens Insurance Inc., was identified as an asset which formed part of the business transfer of assets and was recognised and fully impaired in the statement of financial position of the Group in 2015.

Impairment testing of intangible assets**Goodwill**

In accordance with *IFRS 3 – Business Combinations*, all assets that gave rise to goodwill were reviewed for impairment at 31 December 2016 using the ‘value in use’ method. Based on the results of this review no impairment expense was required.

The following table highlights the goodwill and impairment information for each cash-generating unit:

TATIL

Carrying amount of Goodwill:	133,762
Basis for recoverable amount:	Value in use
Discount rate:	11%
Cash flow projection term:	Five years to perpetuity
Growth rate (extrapolation period):	2%

15. Deferred taxation

As at the statement of financial position date the Government of Trinidad and Tobago enacted the Finance Act No. 10 of 2016 which increased the rate of corporation tax on chargeable income greater than \$1 million from 25% to 30% from 1 January 2017. The change in tax rate impacted the deferred tax assets and liabilities of certain companies in the Group and reduced the Group's net assets as at 31 December 2016 by \$3.5 million. The impact to the Group's statement of income was a charge of \$2.1 million and the impact to the Group's statement of other comprehensive income was a charge of \$1.4 million. The effect of this change was included in the deferred tax expense in the Group's statement of income and statement of other comprehensive income for the year ended 31 December 2016.

16. Employee benefits

The level of pension benefits provided under the defined benefit plans depends on the member's length of service and salary at retirement age. The defined benefit pension plan requires contributions to be made to a separately administered fund. The fund has a separate legal form and is governed by the Board of Trustees who are responsible for the administration of the plan assets and for the definition of the investment strategy.

The Board of Trustees periodically reviews the level of funding in the pension plan. Such a review includes the asset-liability matching strategy and investment risk management policy which considers the term of the pension obligation while simultaneously remaining compliant with the requirements of the Pensions Act. The pension plans are exposed to inflation, interest rate risks and changes in the life expectancy for pensioners in the relevant jurisdictions. As the plan assets include significant investments in quoted equity shares, the Group is also exposed to equity market risk.

On 2 August 2011, the Bank issued US\$50 million medium-term notes in three tranches, two of which matured in 2014 and in 2016. The remaining US\$15 million which represents the last tranche will mature in 2018. Interest is fixed at 5.20% for Tranche 3. In September 2015, the Bank issued an additional US\$29.51 million medium term note maturing on 17 September 2021. Interest was set at a fixed rate of 4% per annum.

TT\$ denominated notes

In November 2014, the Bank issued a TT\$250 million medium-term note maturing on 28 November 2022. Interest was set at a fixed rate of 3.35% per annum. An additional TT\$350 million medium term note was issued on 5 June 2015 with the interest set at a fixed rate of 3.75% per annum. On 3 October 2016, the Bank issued TT\$100.8 million promissory notes in three tranches of TT\$33.6 million each maturing on 3 October 2017, 3 October 2018 and 3 October 2019 respectively. These notes carry fixed rates of interest of 3.05% per annum, 3.24% per annum and 3.43% per annum respectively.

21. Insurance contract liabilities (continued)**Claims development table**

The risks associated with these insurance contracts and in particular, casualty insurance contracts, are complex and subject to a number of variables that complicate quantitative sensitivity analysis. The Group has no known or reported latent claims such as disease or asbestosis and therefore no actuarial analysis is made. The development of insurance liabilities provides a measure of the Group's ability to estimate the ultimate value of claims. The table below illustrates how the Group's estimate of total claims outstanding for each underwriting year has changed at successive year-ends.

	2011	2012	2013	2014	2015	2016	Total
Estimate of outstanding claims costs (gross):							
- at end of underwriting year	70,761	63,671	60,414	61,454	59,532	83,372	—
- one year later	107,188	103,532	100,877	185,765	108,196	—	—

21. Insurance contract liabilities (continued)**Claims development table**

The risks associated with these insurance contracts and in particular, casualty insurance contracts, are complex and subject to a number of variables that complicate quantitative sensitivity analysis. The development of insurance liabilities provides a measure of the Group's ability to estimate the ultimate value of claims. The table below illustrates how the Group's estimate of total claims outstanding for each accident year has changed at successive year-ends. This table shows gross claims expenses by underwriting year over a six year period. We have made the assumption that all Health claims are settled within three months after reported and therefore this does not result in any long outstanding claims liabilities.

	2011	2012	2013	2014	2015	2016	Total
Estimate of outstanding claims (net):							
- at end of underwriting year	56,039	51,973	48,364	50,610	51,058	61,395	—
- one year later	84,928	84,508	81,851	86,094	88,670	—	—
- two years later	85,575	87,668	82,870	85,391	—	—	—
- three years later	83,658	90,506	76,793	—	—	—	—
- four years later	145,627	84,687	—	—	—	—	—
- five years later	143,371	—	—	—	—	—	—
Current estimate of cumulative claims	143,371	84,687	76,793	85,391	88,670	61,395	540,307
Cumulative payments to date	(138,797)	(77,816)	(68,079)	(66,425)	(68,381)	(40,267)	(459,765)
Liability recognised in the statement of financial position	4,574	6,871	8,714	18,966	20,289	21,128	80,542

(Continued)

22. Insurance contracts, investment contracts and reinsurance assets - terms, assumptions and sensitivities**a) Life insurance contracts and investment contracts***Terms and conditions*

The Group offers a combination of individual life, pension, annuity and group life contracts with and without discretionary participation features. These contracts are determined by actuaries and all subsequent valuation assumptions are determined by independent consulting actuaries.

Key assumptions

Material judgement is required in determining the liabilities and in the choice of assumptions relating to both life insurance contracts and investment contracts. Assumptions in use are based on past experience, current internal data and conditions and external market indices and benchmarks, which reflect current observable market prices and other published information. Assumptions are determined as appropriate and prudent estimates are made at the date of valuation. Assumptions are further evaluated on a continuous basis in order to ensure realistic and reasonable valuations.

For insurance contracts, estimates are made in two stages. Firstly, at inception of the contract, the Group determines the assumptions in relation to future deaths, voluntary terminations, investment returns and administration expenses. Secondly, at the end of each reporting period, new estimates are developed to determine whether the liabilities are appropriate in light of the latest current estimates.

For investment contracts, assumptions used to determine the liabilities are also updated at the end of each reporting period to reflect latest estimates.

The key assumptions to which the estimation of liabilities is particularly sensitive are as follows:

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

22. Insurance contracts, investment contracts and reinsurance assets - terms, assumptions and sensitivities (continued)**a) Life insurance contracts and investment contracts (continued)***Mortality and morbidity rates (continued)*

Assumptions are based on underlying experience as well as standard industry mortality tables, according to the type of contract written. For contracts that insure the risk of longevity, appropriate but not excessively prudent allowance is made for expected future mortality improvements. Assumptions are differentiated by sex, underwriting class and contract type.

Mortality rates higher than expected will lead to a larger number of insurance claims and claims will occur sooner than anticipated, which will increase the expenditure and reduce profits for the shareholders.

Investment Return

The weighted average rate of return is derived from a model portfolio that is assumed to back liabilities, consistent with the long-term asset allocation strategy. These estimates are based on current market returns as well as expectations about future economic and financial developments. An increase in investment return would lead to an increase in profits for the shareholders.

Expenses

Operating expense assumptions reflect the projected costs of maintaining and servicing in-force policies and associated overhead expenses. An increase in the level of expenses would result in an increase in expenditure thereby reducing profits for the shareholders.

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

22. Insurance contracts, investment contracts and reinsurance assets - terms, assumptions and sensitivities (continued)**a) Life insurance contracts and investment contracts (continued)***Lapse and surrender rates*

Lapses relate to the termination of policies due to non-payment of premiums. Surrenders relate to the voluntary termination of policies by policyholders. Policy termination assumptions are determined using statistical measures based on the Group's experience and vary by product type, policy duration and changes in policyholders' circumstances.

The impact of a decrease in lapse rates at early duration of the policy would tend to reduce profits for the shareholders but lapse rates at later policy durations is broadly neutral in effect.

Sensitivities

The table below illustrates the impact of various changes in assumptions which are within a reasonable range of possible outcomes given the uncertainties involved in the estimation process. It demonstrates the effect of change in key assumptions whilst other assumptions remain unchanged, if these assumptions were changed in a single calendar year. The correlation of assumptions will have a significant effect in determining the ultimate claims liabilities, but to demonstrate the impact on the claims liabilities due to changes in assumptions, these assumption changes had to be done on an individual basis. It should also be stressed that the relationships between assumptions are non linear and larger or smaller impacts cannot easily be gleaned from these results.

Assumption change	Required increase in insurance contract liabilities	
	2016	2015
2% Increase in mortality	6,100	7,500
5% Increase in expenses	9,300	10,900
10% Change in lapse rates	7,900	6,900
1% Decrease in investment earnings	118,100	112,500

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

22. Insurance contracts, investment contracts and reinsurance assets - terms, assumptions and sensitivities (continued)**b) General insurance contracts***Terms and conditions*

The major classes of general insurance written by the Group include motor, property, casualty, marine, general accident and other miscellaneous types of general insurance. Risks under these policies usually cover a 12 month duration.

For general insurance contracts, claims provisions (comprising provisions for claims reported by policyholders and claims incurred but not yet reported) are established to cover the ultimate cost of settling the liabilities in respect of claims that have occurred and are estimated based on known facts at the end of the reporting period.

The provisions are refined as part of a regular ongoing process and as claims experience develops, certain claims are settled and further claims are reported. Outstanding claims provisions are not discounted for the time value of money.

Assumptions

The principal assumption underlying the estimates is the Group's past claims development experience. This includes assumptions in respect of average claim costs and claim numbers for each accident year. Claims provisions are separately analysed by geographical area and class of business. In addition, larger claims are usually separately assessed by loss adjusters. Judgement is used to assess the extent to which external factors such as judicial decisions and government legislation affect the estimates, as well as testing reported claims subsequent to the end of the reporting period.

The general insurance claims provision is sensitive to the above key assumptions. The sensitivity of certain assumptions like legislative change, uncertainty in the estimation process and other factors is not possible to quantify. Furthermore, because of delays that arise between occurrence of a claim and its subsequent notification and eventual settlement, the outstanding claim provisions are not known with certainty at the end of the reporting period.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

22. Insurance contracts, investment contracts and reinsurance assets - terms, assumptions and sensitivities (continued)

b) General insurance contracts (continued)

Sensitivities

The general insurance claims provision is sensitive to the above key assumptions. The sensitivity of certain assumptions like legislative change, uncertainty in the estimation process and other factors is not possible to quantify. Furthermore, because of delays that arise between occurrence of a claim and its subsequent notification and eventual settlement, the outstanding claim provisions are not known with certainty at the end of the reporting date.

Consequently, the ultimate liabilities will vary as a result of subsequent developments. Differences resulting from reassessment of the ultimate liabilities are recognised in subsequent financial statements.

30. Provision (write back)/charge for impairment of investments

Parent			Group	
2015	2016		2016	2015
6,400	508	State owned	(660)	6,400
3,416	(264)	Government	(264)	3,416
(41,358)	(3,686)	Corporate	(4,682)	(47,789)
<u>(31,542)</u>	<u>(3,442)</u>		<u>(5,606)</u>	<u>(37,973)</u>

Impairment of investments measured at amortised cost relates to corporate fixed income securities where the indicators of impairment exist and management has considered it necessary to recognise an impairment charge. These indicators include overdue interest and principal balances, difficulties in the cash flow of counterparties, credit rating downgrades and economic difficulties in the region in which the counterparty is located.

31. Marketing and policy expenses

35. Segmental information

For management purposes the Group is organised into four operating segments based on the following core areas of operation to the Group:

Banking services	Asset financing, Merchant banking, Investment services, Securities trading and Foreign exchange trading.
Mutual funds	ANSA Secured Fund, ANSA US\$ Secured Fund, ANSA TT\$ Income Fund and ANSA US\$ Income Fund. These Funds are open-ended mutual funds registered in Trinidad & Tobago and established by ANSA Merchant Bank Limited (the 'Bank'). The Bank is the Sponsor, Investment Manager, Administrator and Distributor of these Funds.
Life insurance operations	Underwriting the following classes of longer-term insurance business: (i) individual participating and non-participating life insurance, (ii) group life insurance, (iii) individual insurance and (iv) group annuity and pension.
General insurance operations	Underwriting the following classes of short-term insurance business: (i) commercial and residential fire, (ii) general accident, (iii) marine, (iv) motor, (v) workmen compensation, (vi) group and individual health and rental of property.

No operating segments have been aggregated to form the above reportable operating segments.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on the operating statement of income, and is measured consistently with the operating statement of income in the consolidated financial statements.

Interest income is reported net of related expenses as management primarily relies on net interest revenue as a performance measure, rather than the gross income and expense.

Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third-parties.

No revenue from transactions with a single external customer or counterparty amounted to 10% or more of the bank's total revenue in 2016 or 2015.

36. Related party transactions and balances

Parties are considered to be related if one has the ability to control or exercise significant influence over the other party in making financial or operational decisions. The Bank is ultimately owned by ANSA McAL Limited, incorporated in Trinidad and Tobago, which owns 82.48% of the stated capital of the Bank.

A number of transactions are entered into with related parties in the normal course of business. These include hire purchase, finance leases, premium financing, deposits, insurance coverage and foreign currency transactions. These transactions were carried out on commercial terms and at market rates.

The related assets, liabilities, income and expense from these transactions are as follows:

(Continued)

37. Fair value of financial instruments (continued)

(iii) Determination of fair value and fair values hierarchy (continued)

Description of significant unobservable inputs to valuation:

	Valuation technique	Significant unobservable inputs	Range (weighted average)	Sensitivity of the input to fair value
Unquoted securities	Discounted cashflows	Rate of return	2.12% to 10.85%	2% increase/(decrease) in the rate of return would result in decrease/(increase) in fair value by \$6,237/(\$4,620)

(iv) Transfers between Level 1 and 2

At each reporting date the Group assesses the fair value hierarchy of its financial instruments. A transfer between levels will occur when a financial instrument no longer meets the criteria in which the financial instrument is classified.

There were no transfers between level 1 and level 2 for the year ended 31 December 2016 (2015: government securities valued at \$10.9 million were reclassified from level 2 to level 1)

38. Risk management

Introduction

Risk is inherent in the Group's activities but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls.

This process of risk management is critical to the Group's continuing profitability and each individual within the Group is accountable for the risk exposures relating to their responsibilities. The Group is exposed to credit risk, liquidity risk and market risk.

Risk management structure

The Board of Directors (the 'Board') is ultimately responsible for identifying and controlling risks; however, there are separate bodies responsible for managing and monitoring risks.

Board of Directors

The Board of Directors is responsible for the overall risk management approach and for approving the risk strategies, principles and policies and procedures. Day to day adherence to risk principles is carried out by the executive management of the Bank and its subsidiaries in compliance with the policies approved by the Board of Directors.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

38. Risk management (continued)**Risk management structure** (continued)*Treasury management*

The Bank and its subsidiaries employ Treasury functions which are responsible for managing their assets and liabilities and the overall financial structure. The Treasury function is also primarily responsible for the funding and liquidity risks of the Bank and its subsidiaries.

Concentrations of risk

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Group's results to developments affecting a particular industry. In order to avoid excessive concentrations of risk, the Group's procedures include specific monitoring controls to focus on the maintenance of a diversified portfolio.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprise credit risk, interest rate risk, currency risk and equity price risk each of which are considered below and include, where relevant, the sensitivity of the Group's financial result on movements in certain market risk variables.

Credit risk management

The Group takes on exposure to credit risk, which is the potential for loss due to a counter-party or borrower's failure to pay amounts when due. Credit risk arises from traditional lending, underwriting and investing activity, and from settling payments between financial institutions. Impairment provisions are established for losses that have been incurred at the end of the reporting period.

Significant changes in the economy, or in the state of a particular industry segment that represents a concentration in the Group's portfolio, could result in losses that are different from those provided at the end of the reporting period. Management therefore carefully manages its exposure to credit risk.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

38. Risk management (continued)**Credit risk management** (continued)

The Group structures the level of credit risk it undertakes by placing limits on the amount of risk accepted in relation to one borrower, or group of borrowers, and to geographical and industry segments. Such risks are monitored on an ongoing basis, and limits on the levels of credit risk that the Group can engage in are approved by the Board of Directors.

Exposure to credit risk is further managed through regular analysis of the ability of borrowers to meet capital and interest repayment obligations and by changing these lending limits when appropriate. In addition, collateral, corporate, state and personal guarantees are obtained.

Reinsurance is used to manage insurance risk. This does not, however, discharge the Group's liability as the primary underwriter. If a reinsurer fails to pay a claim for any reason, the Group remains liable for the payment to the policyholder. The creditworthiness of reinsurers is considered on an annual basis by reviewing their financial strength prior to finalisation of any contract.

Maximum exposure to credit risk without taking account of any collateral and other credit enhancements

The following table shows the maximum exposure to credit risk without taking account of any collateral held or other credit enhancements attached. The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are implemented regarding the acceptability of types of collateral and valuation parameters.

Parent			Group	
2015	2016		2016	2015
302,985	286,015	Cash and short-term funds	766,104	720,084

Parent			Group	
2015	2016		2016	2015
2,618,305	2,591,992	Total	6,046,027	5,353,347
<u>6,636</u>	<u>6,442</u>	Contingent liabilities	<u>6,442</u>	<u>6,636</u>
<u>2,624,941</u>	<u>2,598,434</u>		<u>6,052,469</u>	<u>5,359,983</u>

The main types of collateral obtained are as follows:

- For hire purchase and leases – charges over auto vehicles and industrial and general equipment;
- For reverse repurchase transactions – cash and securities;
- For corporate loans – charges over real estate property, industrial equipment, inventory and trade receivables;
- For mortgage loans – mortgages over commercial and residential properties.

Cash and short-term funds and fixed deposits

These funds are placed with highly rated local banks and Central Banks within the Caribbean region where the Group transacts business. In addition, cash is held by international financial institutions with which the Group has relationships as custodians or fund managers. All custodians and fund managers have been classified with a 'stable' outlook. Management therefore considers the risk of default of these counterparties to be very low.

Net investment in leased assets and other instalment loans, mortgages and policy loans

These leases and loans are individually insignificant. With the exception of policy loans, these facilities are typically secured by the related asset. Policy loans are advanced up to the maximum cash surrender value of the policy to which it relates, and therefore there is no risk of loss to the Group.

38. Risk management (continued)**Other loans and advances**

The credit quality of other loans and advances has been analysed into the following categories:

High grade	These facilities are current and have been serviced in accordance with the loan agreements. In addition, these loans are well secured typically by sovereign backed mortgages over properties in desirable locations, or shares in publicly traded companies on the local stock exchange. Also included in this category are loans with related parties which meet all of the above criteria.
Standard	These facilities are current and have been serviced in accordance with the loan agreements.
Special monitoring	These are loans that are typically not serviced on time, but are in arrears for less than 90 days. Payments are normally received after follow up with the client.
Sub-standard	These facilities are either greater than 90 days in arrears but are not considered to be impaired, or have been restructured in the past financial year.
Impaired	These facilities are non-performing.

Investment debt securities

The credit quality of investment debt securities has been analysed into the following categories:

High grade	These include regional sovereign debt securities issued directly or through a state intermediary body where there has been no history of default.
Standard	These securities are current and have been serviced in accordance with the terms and conditions of the underlying agreements. In addition, included in this category are securities issued by related parties and fellow subsidiaries within the ANSA McAL Group of companies.
Sub-standard	These securities are either greater than 90 days in arrears, display indicators of impairment, or have been restructured in the past financial year.
Impaired	These securities are non-performing.

Reinsurance assets

The credit quality of reinsurance assets, can be assessed by reference to external credit ratings agencies, Standard & Poor and A.M. Best. Based on the high ratings, management therefore considers the risk of default of these counterparties to be very low.

Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments. The Group manages its interest rate exposure by offering fixed rates on its funding instruments over the respective term. On the lending side, loans will be granted at fixed rates over specified periods. As interest rates on both deposits and loans remain fixed over their lives, the risk of fluctuations in market conditions is mitigated.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

38. Risk management (continued)**Interest rate risk (continued)**

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates. The Group takes on exposure to the effects of fluctuations in the prevailing levels of market interest rates on both its fair value and cash flow risks. Interest margins may increase as a result of such changes but may reduce losses in the event that unexpected movements arise. The Board sets limits on the level of mismatch of interest rate repricing that may be undertaken, which is monitored daily by the Group Treasury function.

The table below demonstrates the sensitivity to a reasonably possible change in interest rates on the Group's income and equity with all other variables held constant.

The sensitivity of income is the effect of the assumed changes in interest rates on the income for one year, based on the floating rate non-trading financial assets and financial liabilities held at 31 December 2016 and 2015.

Change in basis points		Sensitivity of income	
		2016	2015
Parent	+ 100	40	139
	- 100	(40)	(139)
Group	+ 100	584	295
	- 100	(584)	(295)

Currency risk

The Group takes on exposure to the effects of fluctuations in the prevailing foreign currency exchange rates on its financial position and cash flows. Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Board sets limits on the level of exposure by currency and in aggregate for both overnight and intra-day positions, which are monitored daily. The tables on the following pages indicate the currencies to which the Parent and Group had significant exposure at 31 December 2016 and 2015 on its monetary assets and liabilities. The analysis also calculates the effects of a reasonably possible movement of each currency rate against the Trinidad and Tobago dollar, with other variables held constant.

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

38. Risk management (continued)

Liquidity risk

Liquidity risk is the risk that the Group may encounter difficulty in meeting obligations associated with financial instruments when they fall due under normal and stress circumstances. To mitigate this risk, Management has arranged diversified funding sources in addition to its core deposit base, manages assets with liquidity in mind and monitors future cash flows and liquidity on a daily basis. This incorporates an assessment of expected cash flows and the availability of high grade collateral which could be used to secure additional funding if required.

The Group sources funds for the provision of liquidity from three main sources; retail and wholesale deposits, funding instruments and the capital markets. A substantial portion of the funding for the Group is provided by core deposits and premium income. The Group maintains a core funding base which can be drawn on to meet immediate liquidity needs. Facilities are also established with correspondent banks, which can provide additional liquidity if conditions demand.

The matching and controlled mismatching of the maturities and interest rates of assets and liabilities are fundamental to the management of the Group. The Group employs various asset/liability techniques to manage liquidity gaps. Liquidity gaps are mitigated by the marketable nature of a substantial segment of the Group's assets as well as generating sufficient cash from new and renewed customer deposits and insurance policies.

Analysis of financial liabilities by remaining contractual maturities

The table below summarises the maturity profile of the Group's financial liabilities as at 31 December 2016 and 2015, based on contractual repayment obligations, over the remaining life of those liabilities.

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

38. Risk management (continued)**Equity price risk**

Equity price risk is the risk that the fair values of equities will decrease as the result of a decrease in equity indices and the value of individual stocks. The non-trading equity price risk exposure arises from the Group's investment portfolio.

The effect on income will arise as a result of the change in fair value of equity instruments categorised as fair value through the statement of income. In the case of the Parent, changes in fair value affect the capital reserve as a component of equity, whereas with respect to the subsidiaries, changes in fair value have an impact on the capital reserve and/or income.

The effect on equity and income at 31 December 2016 and 2015 due to a reasonably possible change in equity indices, with all other variables held constant, is as follows:

Market indices	Change in equity price %	Effect on income	
		2016 +/-	2015 +/-
Parent			
TTSE	+/- 3	403	602
S&P 500	+/- 8	3,313	7,094
Group			
TTSE	+/- 3	12,581	13,892
S&P 500	+/- 8	21,390	41,459

39. Capital management

The primary objectives of the Group's capital management policy are to ensure that the Group complies with externally imposed capital requirements and that the Group maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholder value.

ANSA MERCHANT BANK LIMITED

NOTES TO THE SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2016

(Expressed in thousands of Trinidad and Tobago dollars)

(Continued)

39. Capital management (continued)

When managing capital, which is a broader concept than the 'equity' in the statement of financial position, the objectives of the Parent and its subsidiaries are:

- To comply with the capital requirements set by the regulators of the markets where the parent and its subsidiaries operate;
- To safeguard the parent's and the subsidiaries' ability to continue as a going concern so that they can continue to provide returns for shareholders and benefits for other stakeholders; and
- To maintain a strong capital base to support the development of its business.

Capital adequacy and the use of regulatory capital are monitored monthly by Management, employing techniques based on the guidelines developed and implemented by the Central Bank of Trinidad & Tobago for supervisory purposes. The required information is filed with the Central Bank on a monthly basis.

The Central Bank requires each bank or banking group to: (a) hold the minimum level of the regulatory capital of \$15 million, and (b) maintain a ratio of total regulatory capital to the risk-weighted asset (the 'Basel ratio') at or above the internationally agreed minimum of 8%.

In each country in which the Group's insurance subsidiaries operates, the local insurance regulator indicates the required minimum amount and type of capital that must be held by each of the subsidiaries in addition to their insurance liabilities. The Group is subject to the insurance solvency regulations in all the territories in which it issues insurance contracts. The minimum required capital must be maintained at all times throughout the year.

For 2016 and 2015, the Parent and its subsidiaries complied with all of the externally imposed capital requirements to which they are subject at the date of this report.

41. Business combination

On 3 October 2016, the Bank capitalised ANSA Financial Holdings (Barbados) Limited and was issued 100% of its share capital. Also on that date the Bank completed the acquisition of 100% of the financial services business of Consolidated Finance Co. Limited (CFC) and as a result of that acquisition ANSA Financial Holdings (Barbados) Limited is now the immediate parent company of CFC. CFC is a financial services company licensed under Part III of the Financial Institutions Act, Cap 324A of Barbados. ANSA Financial Holdings (Barbados) Limited is a non-operating holding company which is incorporated and domiciled in Barbados.

This business combination was within the scope of IFRS 3- Business Combinations. An analysis of the fair value of the net assets acquired and is shown in the table below:

	Fair value of assets acquired and liabilities assumed on 3 October 2016
Net leases and loans receivable	432,893
Operating lease vehicles	145,280
Investments	110,951
Other non-current assets	14,010
Current assets including cash	<u>101,313</u>
Total assets	<u>804,447</u>
Customers' deposits	570,951
Non-current liabilities	25,905
Current liabilities	<u>32,370</u>
Total liabilities	<u>629,226</u>
Net Assets	<u>175,221</u>
Fair value of net assets acquired	175,221
Fair value of consideration	<u>177,820</u>
Purchased goodwill	<u>2,599</u>
