INVESTMENT STRATEGY

1. Investment Objective and Policy

The Investment Objective of the Fund is to seek to generate investment returns which are superior to all US\$ income mutual funds registered in Trinidad and Tobago, while providing for acceptable levels of liquidity and credit risk by investing primarily in a diversified portfolio of debt securities, equities, instruments and contracts which are backed mainly by marketable securities. Interest income, capital gain and preservation of capital will be important, though not the only, investment considerations for the Fund. The Fund may invest in securities and contracts, including sovereign debt, issued in countries other than Trinidad and Tobago, which are expected to provide high income yield and are not expected to cause deterioration in capital values. The Fund will focus on building and maintaining a portfolio of debt instruments, which are secured or backed by marketable securities. The Fund aims to generate an attractive level of revenue by investing mainly in both government and non-government bonds denominated in US\$.

In selecting debt securities and contracts denominated in currencies other than US\$, the Investment Manager will consider, among other factors, the effect of movements in currency exchange rates on the value of such securities.

For the purpose of hedging risks and enhancing returns, the Fund may enter into derivative transactions, including but not limited to, forward currency contracts.

The Investment Manager generally intends to allocate the Fund's assets among asset classes such as corporate bonds, international and local, regional, foreign holdings, local and regional equity holdings, cash and short-term investments and mortgages.

Subject to the restrictions referred to below the Trustee shall have power on behalf of the Fund, on the advice of the Investment Manager, to cause the Investment Manager to invest in, subscribe for, reinvest in, purchase, sell or otherwise acquire or dispose of in the manner herein securities and financial instruments of all kinds, local and foreign, whether private or publicly traded including but not limited to the following Investments:

- (i) The evidence of indebtedness of any Person (with or without security);
- (ii) Monetary instruments;
- (iii) Cash balances deposited with any licensed bank or financial institution and cash equivalents;
- (iv) Units in any unit trust and/or mutual fund;
- (v) The fully paid shares of any company;
- (vi) Convertible securities;
- (vii) Mortgages secured by real estate or leaseholds;
- (viii) Options, swaps, forward contracts, various forms of hedge transactions and all types of derivative instruments for the purpose of maximising investment returns and/or minimising risk.

Evidence of indebtedness includes but is not restricted to banker's acceptances, promissory notes, securitised loans, commercial paper, mortgage backed securities and other securities backed by bonds, debentures, loans and/or fully paid ordinary shares.

All investments must be made on the advice of, or with the approval of the Investment Manager in accordance with the Investment Management Agreement.

2. Investment Restrictions

There are certain investment policies that are fundamental policies for the Fund, including restrictions that:

- a) No securities that are subject to restrictive legal or contractual obligations on resale may be acquired.
- b) Neither derivative transactions nor forward currency transactions may be entered into for speculative purposes.
- c) In accordance with Clause 13(A) in the Trust Deed, the Fund may not borrow monies in excess of 5% of the net assets of the Fund taken at market value at the time of borrowing.
- d) The Fund may not purchase a security of an issuer if, immediately after the purchase, more than 10% of the net assets of the Fund, taken at market value at the time of the purchase would be invested in securities

of that issuer. This restriction does not apply to a purchase of:

- evidences of indebtedness, other than cash equivalents that have a remaining term to maturity of not more than one year that are issued, or fully and unconditionally guaranteed as to principal and interest by a financial institution or government entity (other than a foreign government or any political division thereof that issue bonds, debentures or other evidences of indebtedness.,
- e) The Fund will not purchase a security of an issuer if, immediately after the purchase, the Fund would hold securities representing more than 10% of the votes attaching to the outstanding voting securities of that issuer, or the outstanding equity securities of that issuer.
- f) The Fund will not purchase a security for the purpose of exercising control or direction over, or management of, the issuer of the security.
- g) The Fund will not purchase equity securities that cannot be readily disposed of through market facilities on which public quotations in common use are widely available, if immediately after the purchase, more than 10% of the net assets of the Fund, taken at market value at the time of the purchase, would be invested in such equity securities.

Some securities considered for investment by the Fund may also be appropriate for other clients advised by the Investment Manager, including its affiliates, as well as other funds. If the purchase or sale of securities is consistent with the Fund's investment policies and one or more of such other funds or clients are considered at or about the same time, transactions in such securities will be allocated among the several clients in a manner deemed fair and equitable. These allocations may be advantageous or disadvantageous to the Fund.

3. Risk Disclosure

The assets of the Fund will:

- a) Be invested in securities and contracts the portfolio of which will be subject to the risk of fluctuations in capital and financial instruments. The Trustee will seek for the Fund to produce positive total investment returns, in any particular year. However, these returns may rise or fall resulting in a change in the yield and period at that time to new investors.
- b) Any investment in the Fund is at the sole risk of the investor.

Foreign Exchange or Currency Risk

The assets of the Fund may be invested in investments denominated in currencies other than US\$. Therefore the portfolio may be exposed to adverse movements in the exchange rate.

Credit Risk

Credit risk is the risk that an issuer of a bond or other fixed income security may not be able to pay interest or repay principal when due. The risk of this occurring is greater with some issuers than with others. When the risk is considered greater, the interest rate paid by the issuer is generally higher than for an issuer where the risk is considered to be lower.

Equity Risk

The value of a mutual fund that invests in equity securities (also called stocks and shares) will be affected by changes in the market price of those securities. The price of a stock is affected by individual company developments and by general economic and financial conditions in those countries where the company is located or carries on business or where the stock is listed for trading.

Liquidity Risk

Liquidity is an indicator of how easily an investment may be converted into cash. An investment may be less liquid if it is not widely-traded or if there are restrictions on the exchange where the trading takes place. As well, the liquidity of any particular security may depend on the general market liquidity of the jurisdiction(s) in which such security is traded. Further, there may not exist a market for certain securities. Investments with low liquidity can have significant changes in market value.

International Business Risk

Purchase investments in businesses located internationally. The taxation regulations of the various jurisdictions may impose withholding and other taxes. Additionally, the accounting and reporting standards may be different from those with which the investors are familiar, and may not require the same amount of disclosure and public information. The level of Government supervision and regulation of foreign exchange may also vary from the practices with which the investors are accustomed. Foreign investment may also be subject to political risk such as expropriation of assets, confiscation, embargoes, political or social instability or adverse diplomatic relations, which could negatively affect the value of the portfolio.

Interest Rate Risk

The fund may invest in fixed interest bearing debt instruments such as a bond whose price is sensitive to changes in interest rates. Typically, there is an inverse relationship between the movement of the price of a fixed interest bond and

the rate of interest. An increase in interest rates will cause the price of a bond to decrease. Conversely, a decrease in interest rates will lead to an increase in the price of a bond. As such, the portfolio can be affected by changes in interest rates.

The Fund is neither insured with the Deposit Insurance Corporation in Trinidad and Tobago nor is it guaranteed by the Central Bank of Trinidad and Tobago or by any of the parties related thereto. The Fund is suitable for investors with a moderate appetite for the risks set out herein.

Derivatives

The Fund may utilise derivative instruments such as swaps, options or forward contracts, to modify or replace the economic attributes associated with an investment in a security (including interests in collective investment vehicles), commodities, currencies, interest rates or other financial instruments. These investments are all subject to additional risks that can result in a loss of all or part of an investment. Such risks include interest rate risk, credit risk, volatility risk, world and local market price and demand, and general economic factors and activity.

4. Modification of Investment Objective

The Investment Objective may not be modified without the approval of the Trustee, an Ordinary Resolution of the Class A Unitholders and an Ordinary Resolution of the Class B Unitholders.

The Distributor may terminate the Distribution Agreement at any time by giving to the Trustee and the Unitholders 90 days' written notice.

- (i) require the removal of the Trustee and/or approve the appointment of a new Trustee under Clause 22 of the Trust Deed; and
- (ii) to sanction any modification, alteration or addition to the provisions of the Trust Deed which is proposed by the Trustee and the Sponsor under Clause 31 of the Trust Deed unless the Trustee and the Sponsor certify in writing that they are of the opinion that (a) the modification does not materially prejudice the interests of the Unitholders, does not operate to release the Trustee from any material obligation to the Unitholders and does not materially increase the amount of expenses chargeable on the assets of the Fund; or (b) is necessary in order to make possible compliance with any fiscal, statutory or official requirement; or (c) is made to correct a manifest error.

PURCHASE OF UNITS AND DISTRIBUTIONS

Subscription for Units

Units in the Fund will initially be offered at \$100.00 per Unit during the Investment Period (being the period from the date of execution of the Trust Deed to 23rd November, 2010 or such later date as the Trustee in its sole discretion may determine (the "Closing Date") and thereafter Units may be offered for sale at the Net Asset Value per Class A Unit calculated on the business day prior to the date of the purchase. Subject to the Trustee determining otherwise, the minimum initial investment in Units by an investor will be \$3,000.00 and thereafter, the minimum amount of an additional investment by a Unitholder in Units, will be \$500.00 save and except in the instances of the re-investment of any distributions payable. Completed Application Forms must be received by the Trustee (or its duly authorised agent) by no later than 11 a.m. on the date of purchase of the units.

Change of Information on Application Forms

If any of the information of a Unitholder contained in his Application Form, including his name or address, is changed, it is the Unitholder's responsibility to inform the Fund Administrator of this in writing as soon as the change occurs.

Payment for Units

Units will only be issued for immediately cleared funds in the lawful currency of the United States of America, which must be received with the relevant Application Form.

Rejection of Application to purchase Units

The Trustee may in its discretion reject any application to purchase Units. Such decision must however be made within one day after receipt of the application. If an application is rejected, all money received with the application will be returned immediately.

Due to the lack of an active primary and secondary market for debt securities in Trinidad and the wider Caribbean, and in order to protect existing Unitholders, the Fund reserves the right to restrict new investment into the Fund until such time as new potential investments become available or existing Unitholders redeem their shares. In such cases, during the Initial Period, the Fund will accept subscriptions from potential investors on a "1st come/1st served" basis, in the exact order in which they are received. *During this period the investment manager will have the right to convert all mandates for reinvestment of distributions to that of payout.*

There is provision for fractional Units.

Income and Distributions

The Trustee will make distributions out of the net income of the Fund. The net income received by the Fund is the total income generated from the Fund's portfolio attributed to the Units less fees and expenses (equation 1).

Equation 1: Net Income = Total Income – Total Expenses

Total Income - is equal to the sum of interest, dividends and any net gains / (losses) on the disposal of investments.

Total Expenses - is equal to the sum of management fees, administrative expenses and audit fees.

Equation 2: Actual Return = $\frac{\text{Total Distribution}}{\text{Unit Price}}$

Total Distribution- is the sum of the daily income awarded to Unitholders.

Unit Price- \$100.00

Distribution will be calculated and accrued to Units daily and distributed to Unitholders quarterly. Units will accrue entitlement to distributions as long as they are issued and not redeemed. Calculation of distributions will be up to but not include a Redemption Date.

Please note that the Fund may be converted into a closed end fund as of any Accounting Date.

Unless a Unitholder indicates on his Application Form when he purchases his Units, his preference for the handling of distributions payable to him, the Fund will automatically reinvest all distributions in additional Units in the Fund during the Initial Period. In the situation where the Fund is in a Quiet Period the Investment Manager will have the right to convert the reinvestment of distributions to that of payout. During a Quiet Period and after conversion of the Fund to a closed end fund, distributions may not be re-invested and shall be made to the Unitholders in accordance with the Trust Deed.

If a Unitholder elects to receive distributions by cheque and the cheque is returned as undeliverable, or if the cheque is not cashed within 6 months of its date, the distribution, and [all subsequent distributions], will be reinvested in additional Units in the Fund during the Initial Period.

If a Unitholder wishes to change the way his distributions are handled, he must notify the Fund Administrator of this in writing.

Statement of Units held

No certificates will be issued in respect of Units registered in the holder's name and the Unit Register kept by the Fund Administrator, as registrar of the Fund will be conclusive evidence of the persons entitled to the Units entered therein.

Quarterly statements will be sent to Unitholders stating: the number of Units held at the beginning of the period to which the statement relates, interest accrued during the period, details of any transactions (purchases, redemptions or transfers), information on distributions made (cash or Units), number of Units held as at end of period, Net Asset Value per Unit and the value of Units held.

Valuation & Calculation of Performance Data:

The Trustee will make distribution out of the net income of the Fund. The net income received by the Fund is the total income generated from the Fund's portfolio attributed to the Units less fees and expenses.

Equation 1: $\text{Net Income} = \text{Total Income} - \text{Total Expenses}$

Total Income is equal to the sum of interest, dividends and any net gains/ losses on the disposal of the investments.

Total Expenses is equal to the sum of management fees, administrative expenses and audit fees.

Equation 2: $\text{Actual Return} = \text{Total Distribution} / \text{Unit Price}$

Total Distribution – is the sum of the daily income awarded to Unit holders.

Distribution will be calculated and accrued to Units daily and distributed to unit holders quarterly. Units will accrue entitlement to distribution as long as they are issued and not redeemed. Calculation of distributions will be up to but not include the redemption date. Please note that the Fund may be converted into a closed end fund as of any Accounting Date and distributions will be paid to Unit holders.

Information as to the Performance Date of the Fund will be distributed to Unitholders quarterly and be published at the same time as such distribution in one daily newspaper.

Determination of Net Asset Value per Unit

After expiration of the Investment Period and during the Initial Period, the subscription price of each Unit will be the Net Asset Value per Unit. It is the objective of the Fund to maintain a price of \$100 per Unit. The assets of the Fund are valued at the close of business on [each business day] in order to determine the Net Asset Value of the Fund (being the value of the Fund's total assets minus its total liabilities including provision for accrued fees and expenses and dividends declared but not paid). The Net Asset Value per Unit will be calculated on each business day or such other day or days as the Trustee may determine by dividing the Net Asset Value of the Fund by the total number of Units outstanding on a relevant Valuation Date. The Net Asset Value per

Unit as at the end of each quarter will be published quarterly. The Net Asset Value per Unit calculated as at any other Valuation Date will be available to any Unitholder upon request.

The Trustee may suspend the determination of Net Asset Value and, accordingly, the issue and repurchase of Units in the Fund during:

- (a) any period in which there is a suspension of trading of the Investments or other property or a substantial part thereof, of the Fund; and
- (b) while circumstances exist as a result of which in the opinion of the Trustee on the advice of the Investment Manager it is not reasonably practicable to realise any Investments or other property or a substantial part thereof, held or contracted for the account of the Fund or to determine fairly the Net Asset Value of the Fund; and
- (c) during any other period permitted by order of the Securities and Exchange Commission or the Stock Exchange for protection of investors.

Valuation of the Fund

Equities, bonds and other debt obligations, which are listed on a stock exchange or traded on an over-the-counter market, shall be valued at the last available sale price or the average of the last bid and offer prices. Unlisted equities, bonds and other debt obligations will be valued based on prices provided by an accepted pricing service to reflect fair market value. Assets not priced in these ways may be valued at cost. All other assets, which have no quoted market price, shall be valued on the basis of such price quotation as the Investment Manager determines best reflects their fair value.

Redemption

During the Initial Period redemption of Units will be executed on each Business Day. To execute Redemption of Units, Unitholders must submit Redemption Forms, which must be received by the Trustee (or its duly authorised agent) by no later than 11 a.m. on the relevant Redemption Date. The Redemption Price will be the Net Asset Value per Unit on the Valuation Date immediately preceding the Redemption Date in respect of which such price is being calculated. Units having an aggregate Redemption Price of up to \$150,000.00 will be redeemed at the Redemption Price less any stamp duty or taxation leviable thereon on the relevant Redemption Date.

Remittance of Redemption Proceeds will be executed on the relevant Redemption Date. Redemptions having an aggregate Redemption Price in excess of \$150,000.00 or one percent or more of the Net Asset Value of the Fund (whichever is less) may be redeemed within five (5) Business Days after submission of the relevant Redemption Form to the Trustee. In the event that the Unitholders holdings in the Fund during the Initial Period falls below the minimum requirement

of \$3,000.00, the Trustee has the discretion to redeem the Units and to remit the balance to the Unitholder in accordance with Clause 8(D) of the Trust Deed.

The Redemption of Units may be suspended in the circumstances detailed in the section above entitled "Determination of Net Asset Value per Unit".

Unitholders who have submitted Redemption Forms will be notified of any such suspension as soon as may be practicable after such suspension and those who have not withdrawn their Redemption Forms during the period of such suspension will be promptly notified upon termination of such suspension.

The executor or administrators of the estate of a deceased Unitholder who was a sole Unitholder or was the sole survivor of joint Unitholders shall be the only Persons recognised by the Trustee as being entitled to the Units represented thereby **PROVIDED ALWAYS** that without further enquiry the Trustee may rely on documents which in its sole discretion appear to validly appoint such executors or administrators.

Mandatory Redemption

If it shall come to the attention of the Trustee that Units are held by any person who is determined by the Trustee to be an inappropriate person to hold Units, as detailed in the Trust Deed, or that Units were acquired or are held by any person in breach of the laws or requirements of any country or governmental authority, then the Trustee shall utilise procedures contained in the Trust Deed Clause 8(E) to compulsorily redeem such Units.

Restrictions on Transfers

Units may be transferred only to persons who are not prohibited from holding Units under the terms of the Trust Deed. The transferee will be required to represent to the Trustee's satisfaction that it is acquiring the Units for investment on its own account and that it is not disqualified from holding Units pursuant to the terms of the Trust Deed. A transfer of Units must be by way of Transfer Form and no such transfer will be effective and binding on the Trustee until entered in the Register.

Subject to a resultant holding of Units by the transferee after the proposed transfer, of which the current value shall be not less than \$3,000.00, no Transfer Form shall relate to Units of a then current aggregate value of less than \$3,000.00 unless such Transfer Form relates to all Units registered in the name of the transferor.

In the event that the number of Units held by the transferor after the proposed transfer falls below the minimum requirement of \$3,000.00 the trustee has the discretion to redeem the remaining Units held by the transferor in accordance with Clause 6(E) of the Trust Deed.
